ACCOUNTABILITY OF FUNDS	<p>This funding request supports all agency goals and objectives. This funds request advances the agency’s objectives by allowing the Conservation Bank to permanently conserve, preserve and protect significant natural resources, farmlands, forestlands, wetlands, open lands, historic and archaeological sites, and urban parks statewide through conservation easements, low interest loans and purchase of land for the purpose of improving the quality of life in SC for current and future generations.</p>
--------------------------------	--

What specific agency objective, as outlined in the agency’s accountability report, does this funding request support? How would this request advance that objective? How

AGENCY NAME:	SC CONSERVATION BANK		
AGENCY CODE:	P400	SECTION:	53

would the use of these funds be evaluated?

RECIPIENTS OF FUNDS	<p>The funds would be distributed to the qualified entities that have submitted applications to the Conservation Bank seeking funds as established by criteria in the statute and by Board decision. The funds would be allocated only after all required due diligence items have been submitted to the Conservation Bank.</p>
----------------------------	---

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST	<p>The Conservation Bank only has one program and purpose which is to conserve significant properties in SC by conservation easements, low interest loans, and purchase of title and the administration of routine office operations associated with completing this program and purpose. The Conservation Bank usually only receives funds from the Documentary Deed Stamp Tax so there would be no other matching funds source. The only exception in funding source is that in FY 17-18 the Conservation Bank received General Fund appropriations.</p> <p>The revenue calculation is based on the BEA estimates and the variances in the year to year actual revenue received into the Conservation Bank’s Trust Account that was subject to the budget authorization sequester. Any changes in the real estate market increases or decreases would cause for a deviation of the revenues received.</p> <p>If funds are not received, the impact would be that the Conservation Bank would not be able to preserve and conserve more significant properties for future generations to enjoy and the Conservation Bank would no longer be able to accomplish its mission to improve the quality of life in South Carolina through the conservation of significant natural resource lands, wetlands, historical and archaeological properties and urban park.</p> <p>Total budget authority of \$23,019,403 is calculated based on \$5,460,903 cash on hand in FY 17-18 and \$17,558,500 from BEA’s estimated revenue for FY 18-19.</p>
---------------------------------	---

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

SUMMARY

A reduction in General Fund Appropriations would inhibit the SC Conservation Bank from further fulfilling its mission to improve the quality of life in South Carolina through the conservation of significant natural resource lands, wetlands, historical properties, archeological sites, and urban parks.

Please provide a detailed summary of service delivery impact caused by a reduction in General Fund Appropriations and provide the method of calculation for anticipated reductions. Agencies should prioritize reduction in expenditures that have the least significant impact on service delivery.

AGENCY COST SAVINGS PLANS

The SC Conservation Bank does not have any costs or operating expenses that exceed \$50,000.

What measures does the agency plan to implement to reduce its costs and operating expenses by more than \$50,000? Provide a summary of the measures taken and the estimated amount of savings. How does the agency plan to repurpose the savings?
