ACCOUNTABILITY OF FUNDS	The agency is requesting 1 program coordinator I and 1 program coordinator II for Crime Victim Services Division.
--------------------------------	---

What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?

	The agency is requesting 2 new FTEs for our Crime Victim Services Division.
--	---

RECIPIENTS OF FUNDS

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST

Crime Victim Services – Address Confidentiality

Bill S.147 amended the SC Code of Laws by adding section 16-25-130 to establish an address confidentiality program whereby victims of domestic violence, dating violence, human trafficking, stalking, harassment or sexual offenses may use a designated address rather than their residential address to conceal their location from an assailant or probable assailant. The Division of Crime Victim Services will be responsible for administering this program but did not receive the requested FTEs to successfully fulfill the requirement. Most states have already established address confidentiality programs with two or more staff members exclusively assigned to the program. The Office is requesting a Program Coordinator I and a Program Coordinator II. The Program Coordinator II would serve as the lead staff who will coordinate the services, provide community services and outreach throughout the state, and train service providers. The Program Coordinator, I will help develop the program, process applications, manage the database, and provide backup support for training. Without state funding, the Office will have to use VOCA funds from the Department of Crime Victim Compensation, which will affect the services Compensation is able to provide to victims of crimes, such as reimbursement for lost wages, medical costs, and funeral assistance.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

ACCOUNTABILITY OF FUNDS	The agency is requesting (1) program assistant and (3) Investigator IV for the Internet Crimes Against Children (ICAC) Task Force.
--------------------------------	--

What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?

	The agency is requesting a total of (4) new FTEs for the ICAC Task Force.
--	---

RECIPIENTS OF FUNDS

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST

Internet Crimes Against Children (ICAC) Task Force– Program Assistant & Investigator IV

With the increase in CyberTips and the Office’s continued effort to remain proactive, the Internet Crimes Against Children Section will need another investigator and analyst to handle the workload. In Fiscal Year 2023, CyberTips increased by 172%.

Additionally, with the increase of unworked cases around the state, the SCAG ICAC Task force has had to step in to assist with the increasing demand. For example, in fiscal year 2023, ICAC saw a 143% increase in pending cases brought to the Attorney General’s Office. Despite closing 88% more cases than in previous years, the amount of pending cases continues to rise.

If the administrative subpoena power bill is enacted this upcoming year, ICAC will need an additional analyst to handle the increased volume of requests from Internet and electronic service providers. Even if not, the dramatic rise in CyberTips has made the need for these additional positions critical.

The federal FTE request will be funded by USDOJ grant. This FTE was temporarily approved in FY24 and requested to be permanent in FY25 budget. **The request was not approved in the FY appropriation.**

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

ACCOUNTABILITY OF FUNDS	The agency is requesting 1 attorney II for the Civil section.

--	--

RECIPIENTS OF FUNDS

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST

Civil Division – Attorney II

The agency is legislatively mandated to handle petitions for removal from sex offender registry for cases it previously prosecuted and for individuals with out-of-state convictions. Based on the 2021 SC Supreme Court opinion in Powell v. Keel, the lifetime registration under the SC Sex Offender Registry Act is unconstitutional unless there is an opportunity for judicial review to assess the risk of re-offending. Despite closing 107% more cases since 2017, the number of pending cases continues to increase. In the last five years, the agency experienced a 71% increase in sex offender registry cases open as of July 1st. The Office anticipates that these numbers will continue to increase. The section is also tasked with reviewing 811 violations and FOIA requests which have both seen a significant increase over the last five years. The SC811 has had an increase from 123 to 191 from open cases in FY22 to FY23 (36% increase). The section is currently operating with only two attorneys. Additional support is critical to assist with the increase workload.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

JUSTIFICATION OF REQUEST

State Grand Jury – Program Coordinator I

The State Grand Jury Section is requesting a Program Coordinator I position. Since its formation, the State Grand Jury Section has tripled its output and has been central to the investigation and prosecution of many high-profile cases. These partnerships

include reducing criminal activity in prisons, prosecuting fentanyl trafficking, and prosecuting public corruption cases. As a result, requests for service from various state, local, and federal law enforcement agencies have increased. Open charges increased from 465 in 2018 to 2,455 in 2023, which is a 428% increase. Subpoenas issued have increased from 114 in 2017 to 330 in 2023. This position will assist attorneys and law enforcement in reviewing and analyzing extensive subpoenaed records and evidence.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

FUNDS

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST

Retention and Merit Funding

The Attorney General’s Office is requesting recurring funding for targeted personnel salary adjustments in the amount of \$850,000 to retain critical talent and acknowledge performance achievements. This request is calculated at 5% of the office’s personnel

expenses. A review of state averages indicates that the Attorney General’s Office still falls slightly behind other agencies in the Attorney III and Attorney IV categories. While comparable monetarily at the Attorney V and Attorney VI classification, our

agency attorneys have significantly more state service. The Office has also identified hiring salaries at a couple of local and state agencies that exceed our current starting salary of \$64,417. The SCAG positions carry statewide responsibilities and

collaboration. Dissimilar to our local prosecution counterparts who are responsible for the many varieties of cases within their counties and regions, SCAG positions are required to travel and handle cases that may be anywhere within the State of SC which

creates an added layer of complexity and dedication. The Office aims to be the premier law firm in the state and must be able to compensate staff accordingly.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

JUSTIFICATION OF REQUEST

Violence Against Women Act (VAWA) Division – Education Prevention Education Coordinator (Program Coordinator I)

The VAWA Program was established in the AG’s office in 1996 to implement a statewide program dedicated to prosecuting offenders, advocating for victims, training professionals, and preventing VAWA crimes through outreach and awareness efforts.

While the VAWA Program has developed and implemented programming and training for professionals, additional focus is required to prevent and respond to VAWA crimes (domestic violence, sexual assault, harassment, teen dating violence, and human trafficking) to target youth and communities. Since the inception of the VAWA Program 28 years ago, the project has not received state funds to expand its programmatic efforts to increase its focus on prevention. This position will support prevention efforts across the state by supporting the development of the state’s first comprehensible prevention education initiative and curricula dedicated to all the VAWA crimes. With its development, outreach and prevention efforts will be provided to schools throughout South Carolina.

Age-appropriate educational materials will be vetted by the state and will increase the ability of schools to access a sustainable prevention education initiative that will meet all the requirements of the state’s Erin Law legislation.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

JUSTIFICATION OF REQUEST

Vulnerable Adults and Medicaid Provider Fraud (VAMPF) - Investigator IV (FTE Only)

The .75 federal and .25 state position is for our Vulnerable Adults and Medicaid Provider Fraud (VAMPF) unit. This unit was audited in 2020 by Health and Human Services, Office of Inspector General (HHS-OIG), our federal funding source who contribute 75% of our budget. HHS-OIG made findings that SCMFCU "had low staff levels that contributed to large caseloads for Unit staff" and that "the Unit's staff levels were low in relation to the State's Medicaid program expenditures". In State fiscal year 21/22, 22/23, and 23/34, SCMFCU received 134, 177, and 223 criminal referrals, respectively. This represents 26% increase year over year and a 67% percent increase over a two year period in case referrals received by the Unit. The addition of this investigator position is needed to mitigate the number of increased case assignments per investigator. Additionally, additional investigative assistance is needed in the Unit's intake process to properly manage the increase of referrals.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

**JUSTIFICATION
OF REQUEST**

The South Carolina Attorney General's Office is seeking \$6 million to offset the legal expenses associated with defending H. 4624, which generally restricts the availability of certain types of gender-affirming healthcare in the state, and a securities case in which the AGO is representing the state.

The H. 4624 bill received widespread support among members of the General Assembly, including legislative leadership. In August 2024, a group of private plaintiffs sued the AG, PEBA, SCDHHS, and MUSC in federal court, challenging the legality of H. 4624. Our offices anticipate that the case will require significant amounts of discovery and extensive work with expert witnesses. We also anticipate that this litigation will take several years to complete with multiple appeals possible. The AG's office and the other state defendants (PEBA, SCDHHS, and MUSC) have collectively decided to retain outside counsel to assist in our defense of the law. It was necessary to retain outside counsel in this case given the nature of the claims brought by the plaintiffs and the nature of the discovery associated with the case. The decision to retain outside counsel in this case is consistent with the practices of other states, who have been sued over similar laws. Counsel retained in this case has extensive experience defending similar laws across the country on behalf of other states.

The Attorney General's Office is representing the State in a complex securities matter, which has required the Attorney General's Office to retain outside counsel to represent the State's interests. Outside counsel for the State will be regularly interacting with and coordinating the efforts of the various state agencies in this complex matter. These interactions will include an extensive investigation, large requests for documents, review and analysis of documents produced, and interviews of staff in various state agencies. This work will prepare outside counsel for effective representation of the State and the State's interests. Outside counsel will make recommendations and provide legal advice to the Attorney General's Office and other South Carolina government leadership. Outside counsel will effectively advocate for the State in presentations to the opposing party and/or prepare for litigation, as appropriate. The Attorney General's Office does not have the necessary expertise to defend the State in this complex securities matter, and the outside counsel retained by the Attorney General's Office does have this experience.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

**JUSTIFICATION
OF REQUEST**

Crime Victim Assistance – Supplemental Allocation for Victim Services (SAVS):

Victims of crime in South Carolina are relying on advocates, domestic violence shelters, rape crisis centers, and other services more than ever. The single greatest source of support for victims of crime programs are Victims of Crime Act (VOCA) subgrants, which cover all 46 counties. These federal funds have been seen a cumulative reduction of 75% nationwide since FY18. As a result, victim services provided by county, municipal, and non-profit agencies in South Carolina are being sharply reduced. This includes advocates who work one-on-one with crime victims as they recover.

In July 2021, Congress passed the VOCA Fix Act, which aims to increase the federal Crime Victims Trust Fund and hopefully result in restored allocations to the states in the future. Until that time, the foundational victim services supported by the VOCA program will continue to diminish unless supplemented by state legislative funds. This request seeks funding to support the VOCA program for one year by supplementing federal grant funds that pass through the SC Office of the Attorney General to organizations providing direct services to victims.

In 2022, our Office was fortunate enough to receive \$10 million in one-time funding from the state legislature. This funding allowed our office to create a new grant funding program, Supplemental Allocation for Victims Services (SAVS). SAVS mirrors the VOCA program almost identically and enabled our office to avoid any cuts to subrecipient organizations in FY2023. In FY24, VOCA funding was cut by 41% from 2023 levels. The legislature allocated an additional \$5 million to SAVS to help fill some of this gap; however, the balance of SAVS was not enough to offset this loss of VOCA funding and agencies were forced to take individual cuts of, on average, 21%.

Unfortunately, without a further influx of funding from the legislature in 2025, we would have to rely solely on federal allocations from VOCA, which would mean even further reductions to individual agencies. This would cause substantial disruptions to victim's service agencies throughout the state.

This request seeks \$15 million in state legislative funds to help offset ongoing federal cuts to victims' services and restore support to agencies. This request would bolster the SAVS program for one funding cycle and allow current subrecipient organizations to maintain their current levels of funding.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

What other funds have already been invested in this project (source/type, amount, timeframe)? Will other capital and/or operating funds for this project be requested in the future? If so, how much, and in which fiscal years? Has a source for those funds been identified/secured? What is the agency's expectation with regard to additional annual costs or savings associated with this capital improvement? What source of funds will be impacted by those costs or savings? What is the expected useful life of the capital improvement?

LONG-TERM PLANNING AND SUSTAINABILITY	<p>The Dennis Building, originally constructed in 1952 for the South Carolina Highway Department and expanded in the 1970s, has served various state functions over the decades. With the Department of Natural Resources scheduled to vacate the building in late to early December or early January 2025, this a unique opportunity to undertake a comprehensive renovation and modernization project to enhance the building's functionality, safety, and efficiency. Currently, \$15 million allocated for the renovation of the first, second, and third floors. However, based on the architect's assessment and further construction cost review, the cost to fully renovate and modernize each floor is projected at approximately \$11 million per floor. To meet the projected renovation costs and achieve the desired modernization of the Dennis Building, we are requesting an additional \$20 million in funding. This request is critical to ensure that the project can be completed without comprising the quality, building code required upgrades, abatement (fire suppression systems), safety and modernization.</p> <p>The building's current infrastructure, including electrical, HVAC, plumbing, and safety systems, is significantly outdated. These systems no longer meet modern standards for</p>

SUMMARY

energy efficiency, occupant comfort, or safety and many are at or beyond their expected lifespan. Renovating these systems is not only essential for compliance with building codes but also for reducing long-term operational costs. A major renovation will introduce modern layouts that optimize space utilization, improve workflow, and support contemporary workplace needs. The renovation will incorporate energy-efficient designs, improved lighting, and better climate control, which are crucial for enhancing productivity and reducing environmental impact.

The architect and construction cost projections have been vetted and are based on current market conditions, material costs, and labor rates. With the Department of Natural Resources vacating the building we have a strategic window to carry out these renovations. Seizing this opportunity will allow for a smoother transition to a modernized workspace and will allow for a more comprehensive approach to renovations, resulting in a better end product. The additional \$20 million in funding is essential to fully realize the renovation and modernization of the Dennis Building. This investment will address critical infrastructure deficiencies, enhance energy efficiency, and create a state-of-the-art environment that supports the operational needs of the AG's staff. Without additional funding, the project cannot proceed timely and the opportunity to upgrade this key staple asset on the complex may be lesser or be delayed significantly.

Provide a summary of the project and explain why it is necessary. Please refer to the budget guidelines for appropriate questions and thoroughly answer all related items.

Please provide a detailed summary of service delivery impact caused by a reduction in General Fund Appropriations and provide the method of calculation for anticipated reductions. Agencies should prioritize reduction in expenditures that have the least significant impact on service delivery.

**AGENCY COST
SAVINGS PLANS**

A 3% reduction to the general fund appropriate would negatively impact current non-FTE, temporary, and contract positions. These positions include staff attorneys and support personnel. Reducing these positions could potentially impact time required for case review, trial preparation, and other administrative operations.

What measures does the agency plan to implement to reduce its costs and operating expenses by more than \$50,000? Provide a summary of the measures taken and the estimated amount of savings. How does the agency plan to repurpose the savings?

--------------------------------	--

Which regulations does the agency intend to amend or delete? What is the enabling authority for the regulation?

SUMMARY	<p>Proposed amendments to §43-7-60 would include a clarification to the definition of a provider to include services provided through Managed Care Organizations and penalties to reflect the amounts of fraudulent claims, similar to property crime statutes.</p> <p>-There is great interest by our taxpayers in combating fraud in the Medicaid program, and this updated statute would allow us to more effectively combat fraud. The current statute requires us to charge one count for each false claim, which is not in the best interest of judicial economy. A statute where we can aggregate the false claims into one charge will be much more efficient. This update also reflects the current Medicaid environment, with services being provided through Managed Care Organizations and not just the South Carolina Department of Health and Human Services.</p> <p>Proposed amendments to §43-7-90 would allow us to use subpoenas in our investigations.</p> <p>-Much of the evidence uncovered during our investigations is stored in another state or in the cloud, so the ability to use a subpoena is paramount to our continued fight against fraud. Additionally, it is burdensome and an additional cost to taxpayers for our investigators to have to travel to the county where the fraud occurred in order to have a search warrant issued by a magistrate. This is a much more efficient use of time and resources.</p> <p>Proposed amendments to §43-35-10 would prohibit the unauthorized videotaping or recording of vulnerable adults.</p> <p>-It is in the best interest of the people of South Carolina to protect our vulnerable adult population from harassment and abuse, and this amendment would close a perceived loophole in the Omnibus Adult Protection Act allowing unauthorized recording of these</p>
