**Fiscal Year FY 2025-2026  
Agency Budget Plan**

**FORM A - BUDGET PLAN SUMMARY**

<b>OPERATING REQUESTS</b>  <i>(FORM B1)</i>	<b>For FY 2025-2026, my agency is (mark "X"):</b>	
	<input checked="" type="checkbox"/>	Requesting General Fund Appropriations.
	<input checked="" type="checkbox"/>	Requesting Federal/Other Authorization.
	<input type="checkbox"/>	Not requesting any changes.

<b>NON-RECURRING REQUESTS</b>  <i>(FORM B2)</i>	<b>For FY 2025-2026, my agency is (mark "X"):</b>	
	<input checked="" type="checkbox"/>	Requesting Non-Recurring Appropriations.
	<input type="checkbox"/>	Requesting Non-Recurring Federal/Other Authorization.
	<input type="checkbox"/>	Not requesting any changes.

<b>CAPITAL REQUESTS</b>  <i>(FORM C)</i>	<b>For FY 2025-2026, my agency is (mark "X"):</b>	
	<input checked="" type="checkbox"/>	Requesting funding for Capital Projects.
	<input type="checkbox"/>	Not requesting any changes.

<b>PROVISOS</b>  <i>(FORM D)</i>	<b>For FY 2025-2026, my agency is (mark "X"):</b>	
	<input checked="" type="checkbox"/>	Requesting a new proviso and/or substantive changes to existing provisos.
	<input type="checkbox"/>	Only requesting technical proviso changes (such as date references).
	<input type="checkbox"/>	Not requesting any proviso changes.

Please identify your agency's preferred contacts for this year's budget process.

	<u>Name</u>	<u>Phone</u>	<u>Email</u>
<b>PRIMARY CONTACT:</b>	Scott Speares	(803) 734-3624	SpearesS@dnr.sc.gov
<b>SECONDARY CONTACT:</b>	Caleb Cohoon	(803) 734-3625	CohoonC@dnr.sc.gov

I have reviewed and approved the enclosed FY 2025-2026 Agency Budget Plan, which is complete and accurate to the extent of my knowledge.

	<input type="checkbox"/>	Public Infrastructure and Economic Development
<input checked="" type="checkbox"/>	Government and Citizens	

<b>ACCOUNTABILITY OF FUNDS</b>	Requested funding addresses the following in the accountability report:
	2.12.3 Conserve and protect the state's natural resources for social, economic, recreational, and commercial benefit while providing maximum human utilization through: (1) the development of public support through outreach, education, and safety programs; (2) the preservation of the peace and protection of human lives and property; and (3) the enforcement of the state's criminal laws through the detection, apprehension, and prosecution of persons who violate those laws.
	3.0 Sustain the State's living marine resources for cultural, recreational, commercial and economic benefit of the state's citizens and visitors.
	1.0: Develop and Implement programs that study, manage and conserve the State's land resources through planning, research, technical assistance, public education and the development of a comprehensive natural resources database.
	1.1: Provide reliable, science based information to decision makers and the public on earth science, climate, and flood mitigation research and activities; land, soil and river conservation. Measures 1.1.1, 1.1.4
	1.2: Provide reliable information and technical assistance to enhance and improve conservation efforts in the state. Measures 1.2.11.2.3
	1.3: Monitor and protect cultural and other resources throughout the state on Heritage Trust properties and provide culturally related recreational/educational opportunities. Measures 1.3.11.3.3 (c) 3.0 Sustain the State's living marine resources for cultural, recreational, commercial and economic benefit of the state's citizens and visitors.
	4.1 Conserve and protect freshwater fish and wildlife species in South Carolina.
	4.3 Provide quality hunting and freshwater fishing opportunities throughout South Carolina.
	5.0 Continuously evaluate and improve administrative and business processes, efficiency, effectiveness, and internal/external service delivery with a focus on transparency, communications, accountability, and the integration of new technologies.

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	Personal Services: Personnel currently in FTEs and candidates qualified and hired to fill vacant FTEs.  Other Operating: Goods and services for program operations obtained by following the state procurement code. Most of these expenditures would be provided through state contract vendors.
----------------------------	---

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

This request addresses specific needs within the agency to retain qualified and dedicated staff at the department and attract qualified candidates for vacant positions that have a desire to contribute to the stewardship of the State's natural resources. SCDNR has addressed many occupational categories in the last couple of years through salary studies leaving a few outlier positions to be addressed and step increases for staff agency wide.

(a) Land, Water & Conservation Pay Plan: 24 staff in the Land, Water & Conservation division are eligible for a 3% Additional Knowledge and Skills adjustment after meeting the required performance, training, and length of service plan standards. 21 staff members are recommended for Pay for Performance increases having consistently performed at high levels. 10 pay for performance actions were not funded in the FY 2025 request, and one FTE to go along with funding was approved in the FY25 request with no corresponding position. There is also one FTE position that has been federally funded in the past but is losing that funding. Therefore, the department is requesting to replace the lost funding with State funding.

Classification Description	State	Federal	Earmarked	Restricted
Salary Actions	\$ 154,257	\$ 25,588	\$ -	\$ 19,749
Employer Contributions	\$ 43,192	\$ 7,165	\$ -	\$ 5,530
	<b>\$ 197,449</b>	<b>\$ 32,753</b>	<b>\$ -</b>	<b>\$ 25,279</b>
<b>Personal Services &gt;</b>			\$ 199,594	
<b>Employer Contributions &gt;</b>			\$ 55,886	
<b>Total Request &gt;</b>			<b>\$ 255,480</b>	

(b) Law Enforcement Step Increases: There are 339 officers currently within the Law Enforcement Division. Of these officers 120 are on track to receive their next step increase totaling \$794,639.36 including fringe. These officers are in state funded FTEs (with 1 exception) and there is no other fund available to support this recurring request. All other available funds have been committed for their intended purposes. The SC DNR Law Enforcement rank structure provides for increases which are determined by years of service at certain ranks. Those increases are either 5% or 10% of the base salary. There are also 17 non-sworn full-time employees that are due to received 3% Pay Plan increases. 6 FTE's are also expected to earn additional certification that would make them eligible for a pay increase ranging from 3% to 5% depending on the certification. 2 FTE's for endpoint technicians for body worn camera's which were funded last year but corresponding FTE's were approved in FY25.

Changes offsetting the reduction in the Boating Safety Grant requires changing 2.62 FTE's from federal funding to state (1.00), earmarked (1.50), and restricted (0.12) in order to retain staff currently funded through that grant and maintain those services to the public.

The immediate impact would be to maintain enforcement of game and fish laws and the department's ability to have staff available to patrol and enforce state laws and incidental presence on the waterways to assist boaters in distress and enforce boating laws. Retaining qualified and knowledgeable staff results in more efficient operations and protection of the State's natural resources. If not approved, we will be unable to fully enforce and protect the Natural Resources of the State of South Carolina.

Classification Description	State	Federal	Earmarked	Restricted
Salary Actions	\$ 648,848	\$ (156,100)	\$ 77,852	\$ 7,668
Employer Contributions	\$ 181,677	\$ (77,957)	\$ 37,369	\$ 3,286
	<b>\$ 830,525</b>	<b>\$ (234,057)</b>	<b>\$ 115,221</b>	<b>\$ 10,954</b>
<b>Personal Services &gt;</b>			\$ 578,268	
<b>Employer Contributions &gt;</b>			\$ 144,375	
<b>Total Request &gt;</b>			<b>\$ 722,643</b>	

(c) Marine Resources Pay Plan: 55 staff in the Marine Resources division are eligible for a 3% Additional Knowledge and Skills adjustment after meeting the required performance, training, and length of service plan standards. 13 staff members are recommended for salary actions as a result of accepting additional duties. 3 additional staff members have been recommended for reclassification.

Classification Description	State	Federal	Earmarked	Restricted
Salary Actions	\$ 23,638	\$ 65,846	\$ 26,164	\$ 75,408
Employer Contributions	\$ 6,619	\$ 18,437	\$ 7,326	\$ 21,114
	<b>\$ 30,257</b>	<b>\$ 84,283</b>	<b>\$ 33,490</b>	<b>\$ 96,522</b>
<b>Personal Services &gt;</b>			\$ 191,056	
<b>Employer Contributions &gt;</b>			\$ 53,496	
<b>Total Request &gt;</b>			<b>\$ 244,552</b>	

(d) Wildlife and Freshwater Fisheries Pay Plan: 52 staff in the Wildlife & Freshwater Fisheries division are eligible for a 6% Additional Knowledge and Skills adjustment after meeting the required performance, training, and length of service plan standards. 6 staff members require a change in their source of funding. A significant decrease in US Fish & Wildlife Service Sportfish Restoration Fund is going to occur for FY 2026. Changing the Chief of Fisheries position and each Regional Fisheries Biologist position to state funding and holding fisheries vacancies, will allow the program to absorb the reduction in aid for personal services categories without a large change in services provided to the public.

Classification Description	State	Federal	Earmarked	Restricted
Salary Actions	\$ 560,455	\$ (346,656)	\$ 33,682	\$ (78,539)

(h) Grant – USFWS Leave Accounting Change (2 CFR 200)

Recent accounting changes to the way that the US Fish and Wildlife Service (USFWS) is requiring state wildlife conservation agencies to charge leave for employees who are paid on USFWS grants has created a liability for SCDNR. This liability would come from leave earned during a grant period, but not taken until after the grant has ended.

--------------------------------	---

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	<p>Other Operating: Publicly and privately owned electric, water, sewer and telephone entities. State of South Carolina Insurance Reserve Fund, and state contract vendors providing specialty insurance for certain items.</p>
----------------------------	---

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

The department requests \$4,615,000 in recurring General Funds to allow revenue and federal funds currently funding expenses for insurances (State, Non-state and Workers Compensation) and utilities (Water & Sewer, Natural/Propane Gas and Electricity) for regional and field offices, to be reprogrammed to support core functions of wildlife, freshwater fisheries and marine resources field operations and research.

State Insurance, including vehicle and tort insurance costs for the department, have increased \$769,704 since FY 2020, a 70% increase over the last five years.

Non-state Insurances, including Ocean Marine and Aircraft policies, have increased \$68,193 since FY 2020, a 173% increase over the last five years.

Workers Compensation Insurance has increased \$487,594 since FY 2020, a 66% increase over the last five years.

Utilities have increased \$223,735 since FY 2020, a 26% increase over the last five years.

While a small of the increases in insurance and utility costs is attributable to increased staffing levels, most are due to increases in utility rates and insurance premiums.

Other than increases effective in FY 2022 for several Saltwater Recreational Licenses and a temporary five-year increase to the State Migratory Waterfowl Permit, all other license fees have not been increased for at least 20 years.

This request will also increase efficiency when processing invoice payments. Currently these expenses are funded from as many as 50 different accounts, making the most of available funds. Consequently, this decreases the availability of license revenue and grant awards for management and research functions.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

<b>ACCOUNTABILITY OF FUNDS</b>	<p>5.1 To continuously evaluate and improve administrative and business processes, efficiency, effectiveness, and internal/external service delivery with a focus on transparency, communications, accountability, and the integration of new technologies.</p>
--------------------------------	---

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	<p>Goods and services for program operations obtained by following the state procurement code. Most of these expenditures would be provided through state contract vendors.</p>
----------------------------	---

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

<b>DESCRIPTION OF REQUEST</b>	<p><u>Technology Equipment Rotation</u></p> <p>Currently DNR has approximately 1,200 PC's and laptop deployed to its staff. The average age of this equipment is over 6.5 years old. Many of these devices have expired warranties and are rapidly reaching the end of their serviceable life. Equipment that is no longer supported by a vendor presents various security concerns, with the lack of vendor supplied firmware updates and aging chipsets that may not be able to support future software upgrades. Current industry recommendations are to replacement all PC's/Laptops on a 5-year cycle to ensure reliably and upward compatibility. Contracts utilized by SCDNR to procure PC's and Laptops now include a 5-year warranty that covers all aspects of the equipment to include accidental damage. SCDNR is seeking funding to permit the agency to annually refresh 20% of the PC's/Laptops deployed across the agency. Due to the evolving nature of the work environment, the agency is also seeking to convert most of its equipment to Laptops. This will make for a more dynamic workforce and support efforts to meet Business Continuity requirements the agency is developing. The annual cost to replace 20% of PC/Laptop equipment (approx. 240 devices) is <b>\$560,220</b>.</p> <p><u>Telecommunication Costs and Standardization</u></p> <p>DNR has over 37+ locations utilizing various communications/data circuits to connect employees to critical resources. Due to budget constraints, DNR is using Internet circuits provided by cable companies to provide essential access to technical</p>
-------------------------------	--

resources. In many cases these circuits provide "Best Effort" connectivity and do not provide any level of QoS. The lack of quality MPLS circuits, providing QoS standards limits the ability of DNR to properly monitor and ensure users are provided with the critical bandwidth needed to perform their job duties.

1. **Network Connectivity:** Install MPLS network circuits/connections to DNR Data Center for all DNR sites.

**Impact:** Significant increase in network performance and improved ability to manage each DNR locations circuit.

1. **Security:** Installation of MPLS commercial grade circuits will permit SCDNR to implement uniform log and SEIM monitoring.

**Impact:** Improve monitoring and create a central feed of logs to both the SCDNR SEIM and the State SOC SEIM. This will permit very timely responses to security incidents.

Total Communication Costs - FY 2023	<u>1,456,607</u>
Improved capacity for offices	<u>50,966.00</u>
<b>Telecommunications costs &amp; standardization</b>	<b><u>1,507,573</u></b>

Costs for telecommunication services represent significant amounts borne by the various revenue sources DNR has available. Freeing this revenue for use in the field will offset increasing operating costs. To provide sufficient band width for all locations using secured circuits \$50,966 is included in this request. Total costs are **\$1,507,573**

Network Equipment Rotation

The current network equipment being used by SCDNR is very out dated and well past it's useful life. Running the agency's network on equipment that is no longer supported by manufacturers poses serious risks to agency data. To get SCDNR up to the industry standard of a 7 year replacement cycle for network equipment will cost an average of **\$275,000** each year.

Other Operating Expenses	Per FTE	Total
240 Laptops/year	\$ 1,585	\$ 380,281
240 Docking Stations/year	\$ 335	\$ 80,411
30 Desktops/year	\$ 1,659	\$ 49,764
120 Monitors/year	\$ 415	\$ 49,764
		\$ 560,220
Telecommunications costs & standardization		\$ 1,507,573
Network Equipment Replacement		\$ 275,000
<b>Equipment Rotation</b>		<b>\$ 560,220</b>
<b>Telecommunication Lines &amp; Network Equipment</b>		<b>\$ 1,782,573</b>
	<b>Total Request &gt;</b>	<b>\$ 2,342,793</b>

**JUSTIFICATION OF REQUEST**

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

<input checked="" type="checkbox"/>	Government and Citizens	

<b>ACCOUNTABILITY OF FUNDS</b>	<p>Requested funding addresses the following in the accountability report:</p> <p>(a) 1.0: Develop and Implement programs that study, manage and conserve the State's land and water resources through planning, research, technical assistance, public education and the development of a comprehensive natural resources database.</p> <p>1.1: Provide reliable, science based information to decision makers and the public on water resource and aquatic plant management; earth science, climate, and flood mitigation research and activities; land, soil and river conservation. Measures 1.1.11.1.4</p> <p>1.2: Provide reliable information and technical assistance to enhance and improve conservation efforts in the state. Measures 1.2.11.2.3</p> <p>1.3: Monitor and protect cultural and other resources throughout the state on Heritage Trust properties and provide culturally related recreational/educational opportunities. Measures 1.3.11.3.3</p> <p>(b) 2.12.3 Conserve and protect the state's natural resources for social, economic, recreational, and commercial benefit while providing maximum human utilization through: (1) the development of public support through outreach, education, and safety programs; (2) the preservation of the peace and protection of human lives and property;; and (3) the enforcement of the state's criminal laws through the detection, apprehension, and prosecution of persons who violate those laws.</p> <p>(c) 3.0 Sustain the State's living marine resources for cultural, recreational, commercial and economic benefit of the state's citizens and visitors.</p> <p>(d) 4.1 Conserve and protect freshwater fish and wildlife species in South Carolina.</p> <p>4.3 Provide quality hunting and freshwater fishing opportunities throughout South Carolina.</p> <p>(e) 5.0 Continuously evaluate and improve administrative and business processes, efficiency, effectiveness, and internal/external service delivery with a focus on transparency, communications, accountability, and the integration of new technologies</p>
--------------------------------	--

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	Other Operating: Goods and services for program operations obtained by following the state procurement code. Most of these expenditures would be provided through state contract vendors.
----------------------------	---

The department has several operational needs that will improve delivery of services to the public and improve internal processes that bolster accountability, compliance, and efficiency within the agency.

**(a) Land Water & Conservation**

**Geology:** operating expenses for the Geological Survey, its Coastal Plain Drilling Program, Coastal Program, Piedmont Program, and GIS Section. Operating costs cover fuel, maintenance and repair of field vehicles, boats, and drill rig, drilling supplies (tools, bits, drill mud, fuel, safety equipment, training, etc.), expendable field equipment, office supplies, and software license costs. Additionally, state funds supporting funded projects can be used as match to grants. **\$50,000**

**Climatology:** The services provided by the State Climatology Office staff have significantly increased over the past four years with no increase in the operating budget. The services provided have increased and the cost to provide those services has also increased. The office also gained a new position in 2000, but no additional operating funds were allocated with the position.

Operating funds are requested to cover travel, supplies and material, fixed charges and IT equipment and subscriptions. **\$48,000**

**Flood:** Over the past 8 years the Flood Mitigation Program has seen an increase in need for the services the program provides to local governments. Funding to provide additional training, outreach, substantial damage assessments and develop new tools for local governments would result in the State being better prepared for flooding and limit bad decisions regarding allowing development in flood prone areas. If the funding is not provided it will limit the program's ability to prepare the state for the next flood, deal with the disasters of the past 8 years and our ability to assist the citizens of SC after a flood or natural disaster. Thus, impacting the economy and quality of life of South Carolina.

Increase in the dedicated funding would increase the amount of inundation mapping needs/updates that can be met and increase the amount of state mapping priorities that can be met that are not funded by the current FEMA Cooperating Technical Partners Cooperative Agreement (grant). Cash match allows the state to potentially increase federal funding. **\$200,000**

**Archeology:** There are a number of projects that are of cultural significance which could be time sensitive due to potential loss from rising tides or storm loss. Additional funding for these projects would allow SCDNR's Archeology team to move swiftly on these projects and preserve their cultural value before it is lost. **\$210,000**

Total Land, Water, and Conservation Request: **\$508,000**

**(b) Law Enforcement**

SCDNR Law Enforcement is requesting \$900,000 in state recurring funds to assist with the rising costs of boat rotational ordering for the fleet.

The SC DNR Law Enforcement division currently has 54 boats and 91 motors currently active over 15 years old (2010). Within this 15-year usage, we have 10 fiberglass boats and 32 aluminum boats. **\$900,000**

**(c) Marine Resources**

The Marine Resources Division's assets and infrastructure span the Marine Resources Center in Charleston, the McKenzie Field Station in the ACE Basin, and the Waddell Mariculture Center in Bluffton. These three locations support all the Marine Division's strategies as they house the buildings, vehicles, small boats and equipment necessary for ~200 staff to carry out every task supporting research, management, and outreach conducted to promote stewardship of our coastal and marine resources.

Operation of the facilities, at one time fully funded by state funds, is now entirely funded through other sources like grants, contracts, and saltwater license revenue. Because of this funding shift, compounded by increasing costs of goods and services, funding is inadequate to fully maintain the facility costs and maintenance is necessarily reactive. Assets are in poor condition and are only addressed when they are non-functional or a safety hazard. Recurring operating funds, combined with other sources, would allow for proactive facility assessment and addressing of issues.

In addition to facility maintenance these funds would also be used to cover some fuel costs for vehicles and ocean-going research vessels, and utilities for the McKenzie Field Station in the ACE Basin and the Waddell Mariculture Center in Bluffton. **\$600,000**

**(d) Freshwater Fisheries**

**Hatcheries Operations:** Funds are needed to support the activities in our Fish Hatchery operations area. Rapidly escalating costs associated with utilities, fuel, feed, contractual services, vehicles, and general supplies are unsustainable without additional funds. Additional funding is critical considering the recent reduction of available federal funds. If funds are not received, SCDNR will be forced to reduce hatchery operations resulting in fewer fish to be stocked in public waters. **\$600,000**

**Fisheries Regional Operations:** Funds are needed to support the activities in our Regional Operations area. Rapidly escalating costs associated with utilities, fuel, vehicles, contractual services, and supplies are unsustainable without additional funds. These state appropriated funds will also be available as match for the federal funding in these areas. Additional funding is critical considering the recent reduction in federal funds historically available to support this program. If funds are not received, SCDNR will be forced to reduce population monitoring and habitat enhancement efforts that benefit anglers in SC. **\$1,300,000**

**(e) Agency Office Buildings**

Funds are needed to cover rapidly increasing building related operating costs for several SCDNR offices across the state. This would include things such as building maintenance, contractual services, and supplies. **\$380,000**

**(f) Executive Office**

Along with other state agencies SCDNR continues to deal with increases in the cost of operating it's core functions. These rising operational costs coupled with the fact that, other than increases effective in FY 2022 for several Saltwater Recreational Licenses and a temporary five-year increase to the State Migratory Waterfowl Permit, all other license fees have not been increased for at least 20 years necessitates a request for operating funds for multiple section within the Executive Office to include Boat Titling and Registration \$475,000, South Carolina Wildlife Magazine \$121,000, Office of Environmental Programs \$113,000, Legal Office \$86,000, and other administrative functions \$160,000. This will fund things such as training, supplies, software licenses, postage, contractual services, etc. **\$955,000**

**Agency Operations**

Geology	\$	50,000
Climatology	\$	48,000

JUSTIFICATION OF REQUEST

Flood Mitigation	\$ 200,000
Archeology	\$ 210,000
Law Enforcement	\$ 900,000
Marine Resources	\$ 600,000
Hatcheries	\$ 600,000
Fisheries	\$ 1,300,000
Office Building Operations	\$ 380,000
Executive Office	\$ 955,000

<b>ACCOUNTABILITY OF FUNDS</b>	<p>Goal 3: Sustain the state's living marine resources for cultural, recreational, commercial, and economic benefit of the state's citizens and visitors. Strategy 3.1, 3.2, Measures 3.1.1, 3.1.2, 3.2.1, 3.2.2</p> <p>These funds would allow for more comprehensive and proactive research, management, and outreach that directly supports stewardship of SC marine resources while maintaining the ability to compete for federal funding that would maximize benefits for our marine resources.</p>
--------------------------------	---

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	<p>Personal Services: Request for new 4 FTEs using general funding. Request to fund 1 current vacant position with general funding.</p> <p>Other Operating: Goods and services for program operations obtained by following the state procurement code. Most of these expenditures would be provided through state contract vendors.</p>
----------------------------	--

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

	<p>This funding request supports the need for enhanced monitoring and management of two of the state's key marine fisheries – blue crab and horseshoe crab. On July 1, 2024 a new comprehensive law passed related to the blue crab fishery based on data showing a declining population coast-wide. Staff capacity is needed to effectively implement the new programs established in the law for the benefit of the blue crab commercial industry and for the sustainability of the resource. Additionally, the horseshoe crab fishery, which is critically important to the biomedical industry, has become a more heavily managed fishery in recent years due to questions about the status of the population and the related population of red knots, a protected species of shorebird. Recent litigation has resulted in the need for enhanced management capacity.</p> <p>Additionally, the funding request supports an expansion of existing scientific sampling programs for both blue crab and horseshoe crab. To effectively manage both species to allow for maximum access by the commercial industries while achieving sustainable population levels, enhanced monitoring data is critically needed. The expansion would allow for additional trawl sampling in eight estuaries six times per year, increasing the quantity and precision of data upon which to make management decisions. The expansion of the trawl surveys will additionally benefit other important fisheries in South Carolina including shrimp and finfish. Operating Request total <b>\$227,319</b>.</p>
--	---

1 Position currently exists in Federal funds. Request is also to fund 4 new positions with General funds.

<input checked="" type="checkbox"/>	Government and Citizens	

<b>ACCOUNTABILITY OF FUNDS</b>	<p>4.1 Conserve and protect freshwater fish and wildlife species in South Carolina.</p> <p>4.3 Provide quality hunting and freshwater fishing opportunities throughout South Carolina.</p>
--------------------------------	--

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	<p>Personal Services: Candidates qualified and hired to fill vacant FTEs.</p> <p>Other Operating: Goods and services for program operations obtained by following the state procurement code. Most of these expenditures would be provided through state contract vendors.</p>
----------------------------	--

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

<b>JUSTIFICATION OF REQUEST</b>	<p>SCDNR does not currently have a full-service Boat Titling and Licensing Office in the Upstate area. Customers in that area currently must drive an hour and a half to conduct business. These funds would allow us to establish a 5-person office which will increase accessibility and improve customer service for our clients in the Upstate. This request is for operating and FTE needs to open a full-service boat titling and licensing office in Greenville County. This would allow DNR to have full customer service coverage in the state and provide access to in person customer service to the vast majority of constituents across the state.</p> <p>This request includes 5 FTE's to staff the office and operating expenses to include lease costs, equipment, mobile devices, computers, software supplies, etc.</p>						
				<b>Employer</b>		<b>Total</b>

<b>ACCOUNTABILITY OF FUNDS</b>	<p>4.1.2 At-risk, threatened, and endangered species protected, monitored, and managed following state and/or federal law.</p> <p>4.1.3 Number of constituents and contacts who attended organized public presentations and workshops to enhance awareness of conservation and natural resources or contacted SCDNR for technical assistance including but not limited to nuisance wildlife issues, wildlife species information, and management advice.</p> <p>4.3.1 Acreage of Wildlife Management Area Program land available to provide hunting opportunities to the public.</p> <p>4.3.3 Number of deer quota cooperators, specialty permits issued, lottery hunt participants, and participants in WFF division hunting/fishing events and programs.</p>
--------------------------------	--

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	<p><b>Personal Services:</b> Candidates qualified and hired to fill FTEs.</p> <p><b>Other Operating:</b> Goods and services for program operations obtained by following the state procurement code.</p>
----------------------------	--

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

<b>DETAILS</b>	<p>The request for an FTE to serve as a wildlife veterinarian will focus on assisting with wildlife disease monitoring and response. With many different wildlife diseases (Chronic Wasting Disease, Avian Influenza, etc.) being monitored throughout the state, it is critical that we have technical expertise on staff to guide management decisions. (4.1.3; 4.3.1, 4.3.3)</p> <p>\$254,886 of operational funds are also requested to assist with testing, temporary/seasonal labor, gas, equipment and supplies to support the veterinary and nongame projects (bird, bat, herp). (4.1.3; 4.3.1, 4.3.3, 4.1.2, 4.1.3)</p> <p>The request for two FTE's for wildlife biologist II's would work as permitting biologists in our Wildlife and Freshwater Fisheries division. This request is in anticipation of legislation passing that would require SCDNR to permit certain venomous reptiles in the possession of SC residents. \$50,000 of operating funds are also requested to purchase the necessary supplies and equipment for these positions.</p>

<b>ACCOUNTABILITY OF FUNDS</b>	1.1.4: Outreach to communities that participate in the Federal Emergency Management Agency, Flood Mitigation Assistance, Cooperating Technical Partners, Community Assistance Program-State Support Services Element Programs.
--------------------------------	--

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	Other Operating: Goods and services for program operations obtained by following the state procurement code.
----------------------------	--

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

<b>JUSTIFICATION OF REQUEST</b>	<p>Strategic Statewide Resilience and Risk Reduction Plan Recommendation</p> <p>The SCDNR Flood Inundation Modeling and Mapping Project will provide emergency responders and others with the information needed for evacuations, search and rescue, road closures, and other emergency response activities. The SCDNR Flood Mitigation Program was tasked with assisting with search and rescue through the production of inundation mapping for the resulting flooding from Hurricane Matthew in 2016. In 2018, the Flood Mitigation Program provided a prediction one week prior to Hurricane Florence making landfall and updated the information through the resulting flooding. The response to these flood events along with others since 2015 resulted in the development of the SC Flood Inundation and Mapping for Action website (scfloodimpact.com) that provides inundation information to the public and emergency officials. This funding request will cover the cost to develop and add the remaining 25 HUC 8 watersheds and 4 coastal county tidal areas to the SC Flood IMPACT website so that the entire state has been modeled and mapped.</p>
---------------------------------	---

<b>ACCOUNTABILITY OF FUNDS</b>	<p>4.1.1 Acres of habitats owned by DNR and managed to promote species diversity and richness. This includes but is not limited to activities such as acres planted, burned, roads mowed and maintained, and wetlands enhanced.</p> <p>4.3.1 Acreage of Wildlife Management Area Program land available to provide hunting opportunities to the public.</p>
--------------------------------	---

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	Other Operating: Goods and services for program operations obtained by following the state procurement code.
----------------------------	--

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

<b>JUSTIFICATION OF REQUEST</b>	<p>A portion of these funds will improve and restore habitat on our state waterfowl impoundments. DNR needs to continue controlling Phragmites (an invasive aquatic plant) and other aquatic nuisance species on its Category 1 Waterfowl Areas. Much of this control must be done via contract helicopter spraying.</p> <p>Trackhoes are a critical infrastructure tool on our waterfowl areas. They conduct regular maintenance of berms and dikes as well as clean ditches and make emergency repairs. These funds will replace one amphibious trackhoe and replace a tracked trackhoe for use on waterfowl areas. Both pieces of equipment are showing significant signs of aging.</p> <p>Marshmasters are another critical piece of equipment for managing wetland impoundments. They are built to traverse extremely wet areas where a standard tractor cannot go and are used for spraying, mowing, disking, and ditching these areas.</p> <p>Boats are utilized to transport members of the public on waterfowl hunts as well as transport staff and equipment to islands.</p> <p>The remaining supplies and items listed are necessary for management and maintenance of the waterfowl impoundments/infrastructure and providing quality waterfowl habitat.</p> <table style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;"><b>Other Operating Expenses</b></th> <th style="text-align: right;"><b>Total</b></th> </tr> </thead> <tbody> <tr> <td>Phragmites/Nuisance Aquatic Vegetation Control</td> <td style="text-align: right;">\$ 2,000,000</td> </tr> <tr> <td>Marshmaster Replacements/Additions</td> <td style="text-align: right;">\$ 450,000</td> </tr> <tr> <td>Mudboats, pusher boats, motors, tractor, implements</td> <td style="text-align: right;">\$ 500,000</td> </tr> <tr> <td>Trackhoes for Waterfowl Areas</td> <td style="text-align: right;">\$ 1,135,000</td> </tr> </tbody> </table>	<b>Other Operating Expenses</b>	<b>Total</b>	Phragmites/Nuisance Aquatic Vegetation Control	\$ 2,000,000	Marshmaster Replacements/Additions	\$ 450,000	Mudboats, pusher boats, motors, tractor, implements	\$ 500,000	Trackhoes for Waterfowl Areas	\$ 1,135,000

<b>ACCOUNTABILITY OF FUNDS</b>	<p>2.1-2.3 - Maintaining Safety, Integrity, and Security</p> <p>Conserve and protect the state's natural resources for social, economic, recreational, and commercial benefit while providing maximum human utilization through: (1) the development of public support through outreach, education, and safety programs; (2) the preservation of the peace and protection of human lives and property; and (3) the enforcement of the state's criminal laws through the detection, apprehension, and prosecution of persons who violate those laws.</p>
--------------------------------	---

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	<p><b>Other Operating:</b> Goods and services for program operations obtained by following the state procurement code. Most of these expenditures would be provided through state contract vendors.</p>
----------------------------	---

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

<b>JUSTIFICATION OF REQUEST</b>	<p>The SCDNR Law Enforcement Division is looking to purchase a new Cessna 206 to replace an older Cessna 210-Centurian (built in 1984) with 9700 hours. In addition, we will be selling our Cessna 206 (built in 1985) with 7700 hours to assist with the offsetting the cost of the new Cessna purchase. The sale of these aircraft will go through the State Surplus process, and we will not be able to use trade in value for new purchase. Therefore, we must continue to use both planes until able to procure a new aircraft. There are no safety concerns that would prohibit the sale of these planes at a future date. Both aircraft have high airframe hours, but it is not beyond the "designed life expectancy" for usage. We have confirmed with the SC Division of Aeronautics in detail about our plans and desires and have an attached document with their support and opinions.</p> <p>The Cessna 206 best fits our mission parameters and is an exceptionally well-made and study platform for DNR-specific missions. The Cessna 210 and 206 are being replaced due to the extreme hours on the airframe and the difficulty in finding parts for planes that has not in production for some time. The overall cost for the new Cessna 206 with updated avionics and navigation is estimated at \$2,625,000.</p> <ul style="list-style-type: none"> <li>• Estimated cost \$2,625,000.00</li> </ul> <p><b>Aircraft Purchase Total: \$2,625,000.00</b></p> <p><b>Vehicles</b> - Inflation of vehicle cost since last requested funding now dictates that we increase our petition for funding for Vehicle Fleet rotation.</p> <p><u>New costs for vehicles:</u></p>
---------------------------------	--

Base Vehicle 54,000

Cradle System Handheld 2,000

Emergency Lights/Equip 9,000

**Total nonrecurring cost: \$65,000**

**\$65,000.00 X 23 Replacement Vehicles: \$1,500,000.00**

The needed funds of **\$1,500,000.00** would allow for the 23 new vehicles.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

<b>ACCOUNTABILITY OF FUNDS</b>	<p>4.1.1 Acres of habitats owned by DNR and managed to promote species diversity and richness. This includes but is not limited to activities such as acres planted, burned, roads mowed and maintained, and wetlands enhanced.</p> <p>4.3.1 Acreage of Wildlife Management Area Program land available to provide hunting opportunities to the public.</p>
--------------------------------	---

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	Other Operating: Goods and services for program operations obtained by following the state procurement code.
----------------------------	--

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

<b>JUSTIFICATION OF REQUEST</b>	<p>Start-up costs for new properties:</p> <p>DNR is in the process of acquiring multiple new properties. Once properties are acquired and before they are opened for public use, DNR must ensure that the boundaries are properly marked, gates are installed to protect sensitive areas and direct traffic flow, and roads are passable for vehicles during a variety of weather conditions. DNR purchases large amounts of gravel and crusher run to establish such access. These funds will allow DNR to move quickly while ensuring that properties are well prepared for public access and activities. <b>\$850,000</b></p> <p>WMA Building and Dove Field Maintenance:</p> <p>Many SCDNR properties have buildings and structures in need of repair. The ones covered by this request will be items that do not rise to the level of a capital project but are still critical to protecting the integrity and functionality of the structure. Needs include window replacement, painting, plaster repairs, plumbing, etc. <b>\$500,000</b></p> <p>Dove fields require a significant investment in fuel, seeds, fertilizer and herbicides. DNR is continuously facing damage from both deer and hogs and has begun installing permanent fencing around fields to protect this investment. Funds received will be applied towards fencing of additional fields. <b>\$380,000</b></p> <p>Historic Building Survey:</p> <p>The department maintains many structures listed on the National Register of Historic Places located on Wildlife Management Area properties. Planning a comprehensive maintenance schedule that incorporates special needs and restrictions unique to historic structures is needed. The department plans to utilize a specialist to conduct a survey of these structures generating a feasibility study for near future maintenance needs on each structure. <b>\$120,000</b></p>
---------------------------------	--

**Other Operating Expenses**

**Total**

New Property Start-up Costs	\$ 850,000
WMA Buildings and Sheds	\$ 500,000
Dove Field Fencing	\$ 380,000
Historic Structure Maintenance Study	\$ 120,000
<b>Total Other Operating Expenses &gt;</b>	<b>\$ 1,850,000</b>

<b>ACCOUNTABILITY OF FUNDS</b>	<p>1.0: Develop and Implement programs that study, manage and conserve the State's land and water resources through planning, research, technical assistance, public education and the development of a comprehensive natural resources database.</p> <p>1.1: Provide reliable, science based information to decision makers and the public on water resource and aquatic plant management; earth science, climate, and flood mitigation research and activities; land, soil and river conservation.</p> <p>Measures 1.1.11.1.4</p> <p>1.2: Provide reliable information and technical assistance to enhance and improve conservation efforts in the state.</p> <p>Measures 1.2.11.2.3</p>
--------------------------------	--

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF FUNDS</b>	<p><b>Other Operating:</b> Goods and services for program operations obtained by following the state procurement code. Most of these expenditures would be provided through state contract vendors.</p> <p><b>Allocations:</b> Homeowners, and communities impacted by Hurricane Debby and Hurricane Helene.</p>
----------------------------	--

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

	<div style="border: 1px solid black; padding: 10px;"> <p>SCDNR was recently awarded a federal grant as part of FEMA's Swift Current grant program which sets aside funding for states that are impacted by disasters. SC has a high number of National Flood Insurance Program (NFIP) policies and was directly impacted by Hurricane Debby and Hurricane Helene. This allows a set aside for SC to be directly allocated \$20,000,000 for Debby and \$20,000,000 for Helene. Swift Current has a maximum match requirement of 25%. SCDNR is requesting \$13,333,333 in state funding to cover the required match. The state funding will be utilized for the following:</p> <ul style="list-style-type: none"> <li>Project scoping funds to assist communities in application development.</li> <li>Management costs funds to cover the administration of the grant.</li> <li>Local cost share (used for elevation, acquisition, demolition/rebuild and floodproofing of NFIP insured buildings)</li> </ul> <p>Project scoping funds and management costs are allowed up to 10% or \$2,000,000 of the federal portion for each storm but require a match of 25%. The match for each of these will be \$666,667 for project scoping and management</p> </div>
--	---

**JUSTIFICATION  
OF REQUEST**

costs. These project scoping and management costs would be the minimum match needed for SCDNR to accept the grant award, but would leave the match portion for community assistance entirely up to the homeowners and/or communities.

With the number of disasters SC has experienced since 2015 match at the local level is extremely limited. Therefore, a request of \$12,000,000 in state funding to cover the match requirement for the projects. Providing the match for the building owners will help the State to fully leverage the federal dollars being allocated to SC and will assist citizens and communities that are vulnerable to flooding to be economically stable.

Disaster	Project Scoping and Mangement		Community Assistance		Total
	Match	Federal	Match	Federal	
Hurricane Debby	\$ 666,667	\$ 2,000,000	\$ 6,000,000	\$ 18,000,000	\$ 26,666,667
Hurricane Helene	\$ 666,667	\$ 2,000,000	\$ 6,000,000	\$ 18,000,000	\$ 26,666,667
Total	\$ 1,333,333	\$ 4,000,000	\$ 12,000,000	\$ 36,000,000	\$ 53,333,333

If matching funds are not received, SCDNR is unlikely to receive enough grant applications to fully leverage the \$40M state set aside.

If all the funding is not expended under this grant program, then the remaining funds will be utilized by the other programs under the flood mitigation program such as match for the traditional Flood Mitigation Assistance grant program, match for the Community Assistance Program – State Support Services Element and/or the Cooperating Technical Partners program for map updates.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

<b>AGENCY PRIORITY</b>	<p style="text-align: center;">2</p> <p><i>Provide the Agency Priority Ranking from the Executive Summary.</i></p>
<b>TITLE</b>	<p style="text-align: center;">State Lakes - High Hazard Dams</p> <p><i>Provide a brief, descriptive title for this request.</i></p>
<b>AMOUNT</b>	<p style="text-align: center;">\$27,755,000</p> <p><i>How much is requested for this project in FY FY 2025-2026? This amount should correspond to the total for all funding sources on the Executive Summary.</i></p>
<b>CPIP PRIORITY</b>	<p style="text-align: center;">(a) Lake Paul Wallace - 2025 #1, (c) Lake Edgar Brown - 2025 #32, (b) Lake Mountain 1 and 2 - 2026 #1</p> <p><i>Identify the project's CPIP plan year and priority number, along with the first year in which the project was included in the agency's CPIP. If not included in the agency's CPIP, please provide an explanation. If the project involves a request for appropriated state funding, briefly describe the agency's contingency plan in the event that state funding is not made available in the amount requested.</i></p>
<b>OTHER APPROVALS</b>	<p style="text-align: center;">Approvals must be secured from JBRC and SFAA as required.</p> <p><i>What approvals have already been obtained? Are there additional approvals that must be secured in order for the project to succeed? (Institutional board, JBRC, SFAA, etc.)</i></p>
<b>LONG-TERM PLANNING AND SUSTAINABILITY</b>	<p style="text-align: center;">Expected life of repairs will be dependent upon future catastrophic events and flooding. New dams and water control structures will be designed to be more dependable and reduce risk of failure thereby protecting downstream assets.</p> <p><i>What other funds have already been invested in this project (source/type, amount, timeframe)? Will other capital and/or operating funds for this project be requested in the future? If so, how much, and in which fiscal years? Has a source for those funds been identified/secured? What is the agency's expectation with regard to additional annual costs or savings associated with this capital improvement? What source of funds will be impacted by those costs or savings? What is the expected useful life of the capital improvement?</i></p>
<b>SUMMARY</b>	<p>The Department of Environmental Services maintains a list of dams in SC and classifies them upon hazard level and condition. As part of DNR's State Lakes Program, we maintain several dams which are classified as high hazard in poor condition.</p> <p>(a) Lake Paul Wallace in Marlboro County is a 300-acre impoundment which consists of a "fishing side" and "boating side" separated by a center dike. Two vulnerable communities –Shady Rest and Richardson Park – lie immediately downstream.</p> <p>On May 6, 2024, the dam at Lake Paul Wallace breached, draining the boating side and forcing the evacuation of downstream residents.</p> <p>Immediately following the breach, the South Carolina Department of Health and Environmental Control (now South Carolina Department of Environmental Services) issued an Emergency Order requiring SCDNR to engage an engineer and follow their recommendations regarding measures necessary to safeguard life and property. At the engineer's recommendation, SCDNR immediately lowered water levels on the fishing side of the lake.</p> <p>The Emergency Order was then followed by Inspection and Repair Order 24-031-W, requiring SCDNR have a Detailed Inspection, as defined by SC Code Ann 49-11-110, performed on the dam. Should the findings indicate the dam is hydraulically or structurally deficient, SCDNR is required to submit a plan to either repair the dam to address the deficiencies or decommission the dam.</p> <p>\$25 million will be allocated towards A&amp;E, construction, permitting, and any other activities needed to repair the dam and reopen the lake.</p> <p>(b) Mountain Lakes 1 and 2, Chester County, are adjacent impoundments in Chester County. Both lakes drain into Lake Ashley, located immediately downstream and surrounded by waterfront homes that would be at risk should either of the Mountain Lakes dams fail.</p> <p>Due to their condition and hazard class, DHEC, via the FEMA High Hazard Potential Dams Rehabilitation Grant, conducted an engineering inspection and risk analysis of the dams at Mountain Lakes 1 and 2. During their field sampling, DHEC's contracted engineers noted several deficiencies which justified lowering water levels.</p> <p>At the primary spillways of both lakes, engineers noted outfall pipe compaction; outfall pipe joint separation; and evidence of sediment transport, which could indicate internal dam erosion. At Mountain Lakes 1's emergency spillway, they observed cracking of the slab at the emergency spillway and voids between the slab and the bridge piles. In addition, trees larger than 4" in diameter on the downstream slope of both dams must be removed and their root systems backfilled to prevent internal erosion.</p> <p>\$2 million will go towards the architecture, engineering, and construction work needed to address the deficiencies at the dams at Mountain Lakes 1 and 2.</p> <p>(c) Lake Brown, Barnwell County is a 100-acre impoundment located within the city of Barnwell and consists of a fishing side and boating side separated by a center dike. Several businesses and facilities, including the Barnwell State Fish Hatchery, are located immediately downstream. The fishing side of the lake is highly eutrophic, and there is little water exchange between the two sides. Algal blooms occur often during the summer months. Although these blooms are frequently benign, a harmful algal bloom in 2020 resulted in a weeks-long recreational water advisory.</p>

During a routine dam inspection in June 2024, DHEC inspectors noted an area of erosion on the right downstream slope of the dam. \$755,000 will be used on architecture, engineering, and construction to improve water exchange across the center dike and stabilize the downstream erosion area.

*Provide a summary of the project and explain why it is necessary. Please refer to the budget guidelines for appropriate questions and thoroughly answer all related items.*

Agency Name:	Department Of Natural Resources		
Agency Code:	P240	Section:	47

## **FORM C – CAPITAL REQUEST**

<b>AGENCY PRIORITY</b>	12
------------------------	----

*Provide the Agency Priority Ranking from the Executive Summary.*

<b>TITLE</b>	Field & Regional Building Maintenance & Construction
--------------	--

*Provide a brief, descriptive title for this request.*

<b>AMOUNT</b>	\$6,460,000
---------------	-------------

*How much is requested for this project in FY FY 2025-2026? This amount should correspond to the total for all funding sources on the Executive Summary.*

<b>CPIP PRIORITY</b>	Ft Johnson - multiple projects , Fire and Safety System Replacements - 2026 #3, Bennet's Point - 2025 #17, Samworth House - 2025 #25, Belfast Roof - 2025 #31, Dennis Wildlife Center - 2026 #6, Waterfowl Area Enhancements - multiple projects
----------------------	--

*Identify the project's CPIP plan year and priority number, along with the first year in which the project was included in the agency's CPIP. If not included in the agency's CPIP, please provide an explanation. If the project involves a request for appropriated state funding, briefly describe the agency's contingency plan in the event that state funding is not made available in the amount requested.*

<b>OTHER APPROVALS</b>	No approvals have been obtained for these projects. Additional approvals must be secured from Office of State Engineer and Joint Bond Review Committee.
------------------------	---

*What approvals have already been obtained? Are there additional approvals that must be secured in order for the project to succeed? (Institutional board, JBRC, SFAA, etc.)*

<b>LONG-TERM PLANNING AND SUSTAINABILITY</b>	State Funds are being invested in MRD Infrastructure for HVAC, Boat Slip, and Central Energy Plant Maintenance. Approvals, for what would be classified as Legislative projects, will be needed from Office of State Engineer and Joint Bond review Committee Staff.
--	--

*What other funds have already been invested in this project (source/type, amount, timeframe)? Will other capital and/or operating funds for this project be requested in the future? If so, how much, and in which fiscal years? Has a source for those funds been identified/secured? What is the agency's expectation with regard to additional annual costs or savings associated with this capital improvement? What source of funds will be impacted by those costs or savings? What is the expected useful life of the capital improvement?*

<b>LONG-TERM PLANNING AND SUSTAINABILITY</b>	<p>This request is to fund improvements and restore infrastructure at many of DNR's Wildlife Management Areas, Waterfowl Impoundments, Field Offices, and the Fort Johnson Buildings. Many of the existing facilities are in need of new HVAC systems, roofs, windows, plumbing upgrades, painting, and/or siding, etc. Funding will allow us to ensure that we are properly addressing issues and protecting such facilities from further damage and more costly repairs and providing necessary facilities to manage said areas.</p> <p><b>Fort Johnson Building Exterior Maintenance</b></p> <p>Estimated Cost - \$1,800,000</p> <p>The scope of this project will include building envelope renovations including window repair, siding and trim restoration, mortar repairs, porch railings and column replacement/repair, and associated renovation/repairs. Such work is required to preserve the integrity and historical significance of these structures that are actively used by SCDNR programs and staff.</p> <p>The Marshlands House and Quarantine Officers Quarters (QOQ) are multi-story historic houses located at SCDNR's Fort Johnson location. Both houses were constructed in the 1800's and are both listed on the national historical register. The Marshlands House is a 6,260 sq. ft. building providing office space for 15 staff, a marsh-side environmental training classroom and meeting room, a staff workshop, two dorm room facilities for visiting scientists, and restroom and shower facilities. the QOQ building is a 2,300 sq. ft. building providing offices and restrooms for 8 SCDNR staff, and a small meeting room.</p> <p><b>Fire and Safety System Replacements</b></p> <p>Estimated Cost \$330,000</p> <p>Funds are needed to address safety, security, and ADA compliance needs across eight office and laboratory buildings as well as outdoor areas including:</p> <p>ADA compliance projects to include Replace ramp for the Marine Resources Research Institute, Restroom and office space improvements in MRD facilities, Parking areas grade correction for MRD's Charleston facilities, Field Station classroom access improvements, and walkways.</p> <p>Life and Safety Updates and Improvements would include Secured exterior locks for all remaining buildings, Campus lighting improvements and additions, Walk-in freezer air monitoring, Upgrade Fire-alarm panels and alerting system in all buildings, Add Sprinklers in auto bay of Maintenance Building, Emergency alert system for MRRRI, Admin and LE buildings (SLED recommendation).</p> <p><b>Bennett's Point Renovation – Final Phase</b></p> <p>Estimated Cost \$400,000</p> <p>The ultimate outcome of this project is to provide an energy efficient, quality facility for staff, visitors, students, and researchers in the ACE Basin Reserve.</p> <p>Bennett's Point Field Station refurbishment to include but not limited to: replacing the Fire Alarm Systems, water tank</p>
--	--

**SUMMARY**

and pump system and floor coverings, renovate the kitchen, restrooms, dorms and classroom, refurbish the outdoor classroom, and assess feasibility of and install solar panels to lower energy costs.

The saltwater from the adjacent river has contributed to the need to refurbish the structure. Once the project is established, the time frame for completion is 6-12 months

**Wildlife Management Area Facility Repairs and Maintenance**

Estimated Cost \$1,280,000

Funds will be utilized to conduct deferred maintenance on houses, offices, and sheds located on Wildlife Management Areas throughout the state in addition to constructing a new workshop. Many of the existing facilities are in need of new HVAC systems, roofs, windows, plumbing upgrades, painting, and/or siding, etc. Funding will allow us to ensure that we are properly addressing issues and protecting such facilities from further damage and more costly repairs and providing necessary facilities to manage said areas.

Facilities maintenance:

Samworth House - \$200,000

Belfast House Roof-\$130,000

Dennis Center renovation and damage repairs - \$700,000

Walhalla Manager's House water damage repair: - \$250,000

**Waterfowl Impoundment Enhancements**

Estimated Cost \$2,250,000

Funds will be utilized to enhance Waterfowl impoundment across the state.

**Geology Core Repository Expansion**

Estimated Cost \$400,000

The Core Repository serves as a library of geologic information for the State. Private industry, developers, land use planners use archived sample material to serve multiple purposes. The current facility is now beyond storage capacity, and there is an opportunity to acquire new material from Savannah River Site. The availability of core information is a major cost- and time-saving to interested parties. The funds requested would allow SCDNR to expand the core repository capacity with a new extension (50'x40'); approximate cost \$400,000 (\$200/sq ft).

<b>Project Expenses</b>	<b>Total</b>
Ft Johnson Building Exterior Maintenance	\$ 1,800,000
Fire and Safety System Replacements	\$ 330,000
Bennett's Point Field Station Renovation	\$ 400,000
Samworth House	\$ 200,000
Belfast Roof	\$ 130,000
Dennis Wildlife Center Repair	\$ 700,000
Walhalla Manager's House Repair	\$ 250,000
Waterfowl Area Enhancements	\$ 2,250,000
Geology Core Repository Expansion	\$ 400,000
<b>Total Request &gt;</b>	<b>\$ 6,460,000</b>

*Provide a summary of the project and explain why it is necessary. Please refer to the budget guidelines for appropriate questions and thoroughly answer all related items.*

Agency Name:	Department Of Natural Resources		
Agency Code:	P240	Section:	47

## **FORM C – CAPITAL REQUEST**

<b>AGENCY PRIORITY</b>	14 <i>Provide the Agency Priority Ranking from the Executive Summary.</i>
<b>TITLE</b>	Habitat Protection and Land Conservation <i>Provide a brief, descriptive title for this request.</i>
<b>AMOUNT</b>	\$30,000,000 <i>How much is requested for this project in FY FY 2025-2026? This amount should correspond to the total for all funding sources on the Executive Summary.</i>
<b>CPIP PRIORITY</b>	Multiple Tracts  <i>Identify the project's CPIP plan year and priority number, along with the first year in which the project was included in the agency's CPIP. If not included in the agency's CPIP, please provide an explanation. If the project involves a request for appropriated state funding, briefly describe the agency's contingency plan in the event that state funding is not made available in the amount requested.</i>
<b>OTHER APPROVALS</b>	The SCDNR works to obtain all the necessary approvals in acquiring properties, some of which vary dependent upon the type of property designation and may include: Heritage Trust Advisory Board, the DNR Board, JBRC, SFAA, County School District, County Council and/or City Council, Legislative Delegation, and the State Historic Preservation Office.  <i>What approvals have already been obtained? Are there additional approvals that must be secured in order for the project to succeed? (Institutional board, JBRC, SFAA, etc.)</i>
<b>LONG-TERM PLANNING AND SUSTAINABILITY</b>	SCDNR staff work creatively to leverage the use of state funds made available to leverage federal dollars from a variety of funding sources including U.S. Forest Service Federal Legacy Grant Program; U.S. Fish and Wildlife Service Coastal Grant Program, National Coastal Wetlands Conservation Grant Program and North American Wetlands Conservation Act Grant program; and local sources of funding such as the SC Conservation Bank, Lynches River Conservation Fund and various funding associated with Federal Energy Regulatory Commission hydroelectric licenses issued in the State of South Carolina.  <i>What other funds have already been invested in this project (source/type, amount, timeframe)? Will other capital and/or operating funds for this project be requested in the future? If so, how much, and in which fiscal years? Has a source for those funds been identified/secured? What is the agency's expectation with regard to additional annual costs or savings associated with this capital improvement? What source of funds will be impacted by those costs or savings? What is the expected useful life of the capital improvement?</i>
<b>SUMMARY</b>	<p>SCDNR staff work creatively to leverage the use of state funds made available to leverage federal dollars from a variety of funding sources including U.S. Forest Service Federal Legacy Grant Program; U.S. Fish and Wildlife Service Coastal Grant Program, National Coastal Wetlands Conservation Grant Program and North American Wetlands Conservation Act Grant Program; and small sources of funding such as the Lynches River Conservation and various funding associated with Federal Energy Regulatory Commission hydroelectric licenses issued in the State of South Carolina.</p> <p>The purpose of the request for an additional \$30,000,000 would allow the SCDNR to quickly act in a real estate market that is booming. When utilizing existing strategies for land acquisition, the SCDNR often has to rely on partner organizations, such as the Open Space Institute or The Nature Conservancy, to negotiate contracts quickly with landowners who are not willing to wait on grant funding award letters. Having a dedicated source of funds for SCDNR Habitat Protection would enable the agency to:</p> <ol style="list-style-type: none"> <li>1) react quicker in today's real estate market;</li> <li>2) purchase key properties in areas of the state where habitat protection is needed most as development increases, driving the fair market value cost of land beyond what SCDNR can obtain;</li> <li>3) acquire large, more contiguous acreage instead of putting together puzzle over time as time is running out in many high development pressure settings and</li> <li>4) bring additional dollars to further leverage federal funds when time to negotiate a contract and close with a landowner is not a constraint.</li> </ol> <p>The Habitat Protection funding request is important to allow the SCDNR the opportunity to act efficiently and compete in a booming real estate market to acquire key properties important for sustaining wildlife, fish and plants, as well as provide outdoor recreation opportunities for future generations of South Carolinians.</p> <p>Of this \$30,000,000 approximately \$17,500,000 would be used to purchase the Goodwill tract, a piece of property that would expand the Wateree River Heritage Preserve by approximately 736 acres. An additional \$2,000,000 would be used to repair a spillway on the Goodwill tract as part of the property start-up costs. A portion of these funds could also be used to perform due diligence activities such as surveying, marking boundaries, etc. The remaining balance of these funds will be used to acquire 1,802 acres in Pickens county, 85 acres in Florence county, 595 acres in Horry county, and 223 acres in Lancaster county.</p>

*Provide a summary of the project and explain why it is necessary. Please refer to the budget guidelines for appropriate questions and thoroughly answer all related items.*

<b>REQUESTED ACTION</b>	Amend
-------------------------	-------

*Choose from: Add, Delete, Amend, or Codify.*

<b>OTHER AGENCIES AFFECTED</b>	No other agencies are affected by this change.
--------------------------------	--

*Which other agencies would be affected by the recommended action? How?*

<b>SUMMARY &amp; EXPLANATION</b>	<p>This proviso allows the Department to retain revenue generated from <i>South Carolina Wildlife Magazine</i> subscription fees and sale of by-products. Revenues are required to support production of the magazine and to promote a self-sustaining operation.</p> <p>The Department may adjust subscription rates as needed to promote a self-sustaining operation. The magazine is a price sensitive product. Subscriptions remain within a narrow band of 25,000 to 27,000 annual subscribers and additional subscription increases will negatively impact subscription renewals.</p> <p>The Department must maintain a minimum number of pages considered as advertising. We currently hold a Not-for-Profit status with the US Post Office. As a Not-for-Profit entity the magazine receives the benefit of a lower postage rate per issue mailed. Increasing advertisements will jeopardize that rate.</p>
----------------------------------	---

*Summarize the existing proviso. If requesting a new proviso, describe the current state of affairs without it. Explain the need for your requested action. For deletion requests due to recent codification, please identify SC Code section where language now appears.*

<b>FISCAL IMPACT</b>	<p>The Department has requested General Fund salary and operations support for the magazine that totals \$377,702. Amending the proviso allows general funds to support the program.</p> <p>Without the change, the magazine cannot utilize General Funds and will continue to draw funding from Fish &amp; Wildlife Protection Fund and Boat Titling Fund. These funds are needed to support other Department operations.</p> <p>The method is simple replacement for salaries/employer contributions and operating to cover postage and contract cost for external writes/photographers.</p>
----------------------	--

*Provide estimates of any fiscal impacts associated with this proviso, whether for state, federal, or other funds. Explain the method of calculation.*

For the current fiscal year all revenue generated from the sale of the "South Carolina Wildlife" magazine, its by-products and other publications, shall be retained by the department and used to support the production of same in order for the magazine to be self-sustaining. In addition, the department is authorized to sell advertising in the magazine and to increase the magazine's subscription rate, if necessary, to be self-sustaining. **No general funds may be used for the operation and support of the "South Carolina Wildlife" magazine.**

*Cite the proviso according to the renumbered list (or mark "NEW").*

<b>TITLE</b>	DNR: Barnwell County
--------------	----------------------

*Provide the title from the renumbered list or suggest a short title for any new request.*

<b>BUDGET PROGRAM</b>	Nonrecurring Appropriation
-----------------------	----------------------------

*Identify the associated budget program(s) by name and budget section.*

<b>RELATED BUDGET REQUEST</b>	N/A
-------------------------------	-----

*Is this request associated with a budget request you have submitted for FY 2025-2026? If so, cite it here.*

<b>REQUESTED ACTION</b>	Delete
-------------------------	--------

*Choose from: Add, Delete, Amend, or Codify.*

<b>OTHER AGENCIES AFFECTED</b>	No other agencies are affected by this change.
--------------------------------	--

*Which other agencies would be affected by the recommended action? How?*

<b>SUMMARY &amp; EXPLANATION</b>	<p>The proviso allowed DNR to disburse funds originally designated for the Steel Creek Boat Landing Repair project to be repurposed and disbursed to Barnwell County for construction of an amphitheater.</p> <p>The proviso is no longer needed as all funds were disbursed to Barnwell County during FY 2024-2025.</p>
----------------------------------	--

*Summarize the existing proviso. If requesting a new proviso, describe the current state of affairs without it. Explain the need for your requested action. For deletion requests due to recent codification, please identify SC Code section where language now appears.*

<b>FISCAL IMPACT</b>	There is no fiscal impact to any funds. The funds have been disbursed to Barnwell County
----------------------	--

*Provide estimates of any fiscal impacts associated with this proviso, whether for state, federal, or other funds. Explain the method of calculation.*

~~Funds remaining of the \$200,000 appropriated in Act 94 of 2021, Section 118.18(B)(77) to the Department of Natural Resources for the Steel Creek Boat Landing Repair shall be redirected to the County of Barnwell for the Barnwell Outdoor Amphitheater.~~

PROPOSED PROVISIO  
TEXT

*Paste existing text above, then bold and underline insertions and strikethrough deletions. For new proviso requests, enter requested text above.*

Agency Name:	Department Of Natural Resources		
Agency Code:	P240	Section:	47

## **FORM D – PROVISO REVISION REQUEST**

<b>NUMBER</b>	55.14
---------------	-------

*Cite the proviso according to the renumbered list (or mark "NEW").*

<b>TITLE</b>	DES: Water Recreational Resource Funds Transfer
--------------	---

*Provide the title from the renumbered list or suggest a short title for any new request.*

<b>BUDGET PROGRAM</b>	Program was transferred to P500 Department of Environmental Services
-----------------------	--

*Identify the associated budget program(s) by name and budget section.*

<b>RELATED BUDGET REQUEST</b>	N/A
-------------------------------	-----

*Is this request associated with a budget request you have submitted for FY 2025-2026? If so, cite it here.*

<b>REQUESTED ACTION</b>	Amend
-------------------------	-------

*Choose from: Add, Delete, Amend, or Codify.*

<b>OTHER AGENCIES AFFECTED</b>	<p><b>The Department of Environmental Services</b></p>
--------------------------------	--

*Which other agencies would be affected by the recommended action? How?*

<b>SUMMARY &amp; EXPLANATION</b>	<p>Requires the Department of Natural Resources to transfer \$708,000 to the Department of Environmental Services. This amount was composed of the 1) projected carry forward balance for the fund from FY 2024 to FY 2025, and 2) estimated annual allocation to the fund based on the formula derived in 12-28-2730 items (B) and (D).</p>
----------------------------------	--

*Summarize the existing proviso. If requesting a new proviso, describe the current state of affairs without it. Explain the need for your requested action. For deletion requests due to recent codification, please identify SC Code section where language now appears.*

<b>FISCAL IMPACT</b>	<p>Without the change, Aquatic Nuisance Species will receive approximately \$258,000 more in Water Recreational Resource Funds which will decrease funds allocated to DNR Law Enforcement.</p> <p>As the allocation from SCDOT to SCDNR is capped at 1% from the first thirteen cents of the gasoline user fee, a decrease in gallons consumed results in a decrease in taxes transferred. If the \$708,000 exceeds the portion available for Law Enforcement and Aquatic Nuisance Species, then the amount available for distribution to county accounts is impacted.</p>
----------------------	--

Provide estimates of any fiscal impacts associated with this proviso, whether for state, federal, or other funds. Explain the method of calculation.

For the current fiscal year, notwithstanding the provisions of Section 12-28-2730(D), the Department of Natural Resources shall transfer the amount **calculated for the Aquatic Nuisance Species of \$708,000** from the special water recreational resources fund to the Department of Environmental Services to fund the hydrology and aquatics nuisance species programs transferred to and devolved upon the Department of Environmental Services pursuant to Act 60 of 2023.

**PROPOSED PROVISIO  
TEXT**

Marine Research &amp; Monitoring - Reduce vehicle and lab equipment purchases, travel, and supplies</li> <li>II.G.1. Earth Sciences - Reduce field travel, supplies and materials for drill rig, reduce vehicle rotation by 1 unit</li> <li>II.G.2. Conservation - Reduce supplies, travel, and flood mapping projects; reduce Aid to Conservation Districts by \$750 per district</li> <li>II.G.3. Heritage Trust - Reduction in supplies and fuel</li> <li>II.G.4. Environmental Review - Reduction in office supplies and fuel</li> </ul>
----------------	---

*Please provide a detailed summary of service delivery impact caused by a reduction in General Fund Appropriations and provide the method of calculation for anticipated reductions. Agencies should prioritize reduction in expenditures that have the least significant impact on service delivery.*

	Savings realized from reductions in mileage for Law Enforcement used to afford fuel.
--	--

**AGENCY COST SAVINGS  
PLANS**

*What measures does the agency plan to implement to reduce its costs and operating expenses by more than \$50,000? Provide a summary of the measures taken and the estimated amount of savings. How does the agency plan to repurpose the savings?*

Agency Name:	Department Of Natural Resources		
Agency Code:	P240	Section:	47

## **FORM F – REDUCING COST AND BURDEN TO BUSINESSES AND CITIZENS**

<b>TITLE</b>	Law Enforcement use of Warning Tickets
--------------	--

*Provide a brief, descriptive title for this request.*

<b>EXPECTED SAVINGS TO BUSINESSES AND CITIZENS</b>	\$2,732,625 in fines and 13,012.50 hours of court time saved.
--	---

*What is the expected savings to South Carolina's businesses and citizens that is generated by this proposal? The savings could be related to time or money.*

<b>FACTORS ASSOCIATED WITH THE REQUEST</b>	<b>Mark "X" for all that apply:</b>	
	<input type="checkbox"/>	Repeal or revision of regulations.
	<input checked="" type="checkbox"/>	Reduction of agency fees or fines to businesses or citizens.
	<input type="checkbox"/>	Greater efficiency in agency services or reduction in compliance burden.
	<input type="checkbox"/>	Other

<b>METHOD OF CALCULATION</b>	<p>Approximately 26,025 warning tickets were issued, multiplied by the minimum fine of \$105.00 for most violations of SC Code Title 50.</p> <p>Case prosecution would take approximately 15 minutes per case multiplied by 26,025 violations.</p> <p>Officer's hourly rate of at least \$30.10 per hour multiplied by 6,506.25 hours of court time.</p> <p>The defendant's time plus the court staff's time would determine the total hours saved by citizens and businesses.</p>
------------------------------	--

*Describe the method of calculation for determining the expected cost or time savings to businesses or citizens.*

<b>REDUCTION OF FEES OR FINES</b>	Fines for violations of SC Code Title 50.
-----------------------------------	---

Enabling authority is derived from SC Code 50-3-110.

*Which fees or fines does the agency intend to reduce? What was the fine or fee revenue for the previous fiscal year? What was the associated program expenditure for the previous fiscal year? What is the enabling authority for the issuance of the fee or fine?*

<b>REDUCTION OF REGULATION</b>	This action would not require any amendments or deletions of current regulations.
--------------------------------	---

*Which regulations does the agency intend to amend or delete? What is the enabling authority for the regulation?*

<b>SUMMARY</b>	<p>During FY 2023-2024 a total of 26,025 warning tickets were issued. Using warning tickets versus courtesy summons for documented violations, the expected savings in fines is \$2,732,625. Savings from court appearances are unknown for court personnel, it takes approximately 15 minutes per case for prosecution which would save at least 6,506.25 hours of officer time in court. Based on a starting officer's hourly rate of \$30.10 per hour, will generate an additional savings of \$195,838. These reductions are based on the minimum fine of \$105 for most violations of SC Code Title 50 which also includes court fees. The public would save a minimum of 6,506.25 hours of personal or employer time due to not attending court. Court personnel would also see a savings of 6,506.25 hours due to not hearing these cases.</p> <p>This action does not affect agency operations.</p>
----------------	---

*Provide an explanation of the proposal and its positive results on businesses or citizens. How will the request affect agency operations?*
