

What is it?

The CPIP is an annual planning document required to be submitted by all agencies and higher education institutions who anticipate submitting items that qualify as a Permanent Improvement Project (PIP). The purpose of the CPIP process is to provide Executive and Legislative Branch leadership with an outline of each agency's and institution's permanent improvement activities for the next five years, beginning with the fiscal year starting July 1 after the submission.

When does this document need to be submitted and what time frame does it include?

Around mid to late April, the Executive Budget Office (EBO), will distribute instructions and forms to be completed and returned by a specified date.
