FUNDS

due diligence items have been submitted to the Conservation Bank.

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST

The Conservation Bank's principal purpose and program is to review and award competitive grants to qualified governmental and non-profit entities to purchase interests in land for conservation purposes, which constitutes the vast majority of our expenses. The Bank also incurs expenses associated with routine administrative and operational activities. The Conservation Bank previously only received funds from the Documentary Deed Stamp Tax but, as of FY 17-18, its funding derived from General Fund appropriations.

Historically, third party funding requests to the Bank have greatly exceeded our annual appropriations. We expect that same dynamic to play out in FY22, with several large conservation transactions anticipated to materialize in the coming months. Additionally, numerous federal programs have increased funding for conservation projects, provided they meet certain thresholds for non-federal matching partners. The Conservation Bank is one of the most efficient and reliable sources of non-federal match that can help attract federal dollars to South Carolina. Given recent increases in federal conservation programs, we anticipate corresponding increases to the Bank to support non-federal matching requirements.

Decreases to the Conservation Bank's budget would limit partner organizations' capabilities to protect significant natural resource lands, wetlands, historical and archaeological properties and urban parks throughout the state, and to attract federal dollars that would otherwise dramatically leverage the State's contributions.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

Conservation Bank on their behalf to the National Coastal Wetlands Conservation Program. The funds would be allocated only after all required due diligence items have been submitted to the Conservation Bank. The Board and staff will vet the projects for consistency with the Conservation Bank’s mission and governing policies and procedures.

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST

Governor McMaster designated the SC Conservation Bank as an eligible applicant of the U.S. Fish and Wildlife Service’s (USFWS) National Coastal Wetlands Conservation Grant (NCWCG) program in December 2019. The NCWCG program provides grants of up to \$1 million per project to protect, restore and enhance coastal wetland ecosystems and associated uplands. The grants are funded through the Sport Fish Restoration and Boating Trust Fund, which is supported by excise taxes on fishing equipment and motorboat fuel. The Bank works with eligible entities to submit an application to the USFWS for their review and often assists the entities with match funds. The Bank will work to capture the federal funds to further leverage the State’s investment in conservation. The number of applications submitted to this program will fluctuate from year to year, but the Bank strives to complete up to ten quality projects annually. If authorization to use these funds is not received, the impact would be that the Conservation Bank would not be able to preserve and conserve more significant properties for future generations to enjoy and the Conservation Bank would not be able further accomplish its mission to improve the quality of life in South Carolina through the conservation of significant natural resource lands, wetlands, historical and archaeological properties and urban parks.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

FUNDS

items have been submitted to the Conservation Bank.

What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?

JUSTIFICATION OF REQUEST

In 2013, the Georgia Ports Authority (GPA) entered into a settlement agreement regarding the environmental impacts of the Savannah Harbor Expansion Project (SHEP). The agreement calls for the GPA to set aside \$15 million for conservation and restoration of important lands in the Lower Savannah River Basin, of which \$5 million was designated for the Conservation Bank. The Bank will administer these funds in accordance with its operating policies and procedures, with the exception that they will only support projects within that specific geography.

The Bank requests authorization to establish a fund separate and distinct from the General Trust Fund for the purpose of collecting, holding and administering monies, arising from the SHEP settlement agreement.

If authorization to use these funds is not received, the impact would be that the Conservation Bank would not be able to preserve and conserve more significant properties for future generations to enjoy and the Conservation Bank would not be able further accomplish its mission to improve the quality of life in South Carolina through the conservation of significant natural resource lands, wetlands, historical and archaeological properties and urban parks.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

**JUSTIFICATION OF
REQUEST**

During FY 2019-2020, the General Assembly authorized the Bank to use \$2,564,400 in carryforward other funds. Since then, the Bank has used these funds to accomplish its mission to improve the quality of life in South Carolina through the conservation of significant natural resources lands, wetlands, historical and archeological properties and urban park. The Bank is therefore requesting the deletion of this budget item.

Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.

|----------------------------------|---|
| SUMMARY & EXPLANATION | <p>Prior to 2018, a portion of the proceeds from the deed stamp tax funded the SC Conservation Bank ("Bank"), and Section 48-59-60 provided that its unexpended revenues would be carried forward in its trust fund account. In 2018, the Bank began receiving its funding from General Appropriations, from which unexpended funds generally cannot be carried forward between fiscal years.</p> <p>The Bank's principal operating activity is funding third parties' conservation real estate transactions. These conservation projects are opportunistic in nature and their timelines do not always coincide with the Bank's fiscal year. This incongruence between the Bank's fiscal year deadline and the timelines associated with the third parties' conservation real estate transactions creates timing challenges with the Bank's administration of grants.</p> <p>The following proviso is intended to relieve the timing challenges described above. By allowing the Bank to carry-over any unexpended funds, the Bank would have more flexibility to support conservation projects that may operate on a timeline that falls after the Bank's fiscal year. It would also allow the Bank to redeploy funding to other important projects in the event that an approved grant cannot close due to circumstances outside of the Bank's control. The chief aim of this proviso is to moderate the timing challenges associated with funding independent conservation real estate transactions and the Bank's fiscal year deadlines.</p> |

|----------------------------------|--|

What programs or activities are supported by the General Funds identified?

| | |
|----------------|---|
| SUMMARY | A reduction in General Fund Appropriations would inhibit the SC Conservation Bank from further fulfilling its mission to improve the quality of life in South Carolina through the conservation of significant natural resource lands, wetlands, historical properties, archeological sites, and urban parks. |
|----------------|---|

Please provide a detailed summary of service delivery impact caused by a reduction in General Fund Appropriations and provide the method of calculation for anticipated reductions. Agencies should prioritize reduction in expenditures that have the least significant impact on service delivery.

**AGENCY COST
SAVINGS PLANS**

The SC Conservation Bank does not have any costs or operating expenses that exceed \$50,000.

What measures does the agency plan to implement to reduce its costs and operating expenses by more than \$50,000? Provide a summary of the measures taken and the estimated amount of savings. How does the agency plan to repurpose the savings?
