<b>ACCOUNTABILITY OF FUNDS</b>	<p>1.Ensure compliance with state and federal laws and agency policies.</p> <p>2.This request would advance the strategy above by ensuring the SEC has the resources needed to ensure county boards of voter registration and election are uniformly abiding by federal and state statutes, as well as SEC regulations and directives.</p>

**FUNDS**

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

**JUSTIFICATION OF REQUEST**

The S.C. State Election Commission was granted limited supervisory authority over county boards of voter registration and elections in 2014. Since 2014, this agency has implemented several different kinds of post-election audits, analyses, and reviews of county offices. One kind of review is county compliance audits. In 2016, agency area representatives were hired to assist with county training and assisting counties with elections operations, as well as represent the agency to their assigned counties. Area representatives have also doubled as auditors in the county compliance audit process.

A combination of this agency’s experience and the recommendations of outside reviewers have highlighted a need for a separate audit department dedicated solely to county compliance efforts. While area representatives have done admirably thus far, they are not trained compliance auditors and there may be a conflict of interest in asking an area representative to both maintain a good working relationship with a county, while simultaneously auditing that county in a compliance audit.

This request is also an attempt to answer to several concerns raised by legislative members in the first session of the 124<sup>th</sup> General Assembly in 2021—namely, that while counties vary in many ways, all counties should uniformly comply with federal and state election laws, as well as agency regulations and directives.

These funds would be used to fund four new FTE’s: three compliance auditors and one audit manager. This team would be responsible for the county compliance auditing process at the agency and would conduct election compliance audits year-round. Results of these reports will be shared with the respective counties and published on the agency’s website.

If the funds are not provided, the resources needed to establish a separate compliance audit department would not be available. Area representatives would continue to conduct limited audits of a number of counties only in odd-numbered years.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

<b>ACCOUNTABILITY OF FUNDS</b>	Advances the strategic objective by ensuring the SEC can cover for ongoing costs the secure, encrypted connection devices ("MiFi's") for the Electronic Poll Book ("EPB") system.
--------------------------------	---

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

<b>RECIPIENTS OF</b>	The S.C. State Election Commission would be the recipient of the funds to pay for the ongoing MiFi costs. The MiFi devices are used by county boards of voter registration and elections in their elections.
----------------------	--

**FUNDS**

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

**JUSTIFICATION OF REQUEST**

The S.C. State Election Commission procured a statewide EPB system prior to the 2020 General Election. The system ensures that only eligible voters may vote and ensures that those eligible voters receive the correct ballot when they vote. It also drastically reduces the time it takes to check-in a voter at the polling place, thereby reducing lines at the polls. Also, because of the cut in time it takes to check in to vote, it greatly assists poll workers in promoting a safe environment amidst a pandemic.

The EPB MiFi devices allow the EPB system to fully function as intended:

- The MiFi devices connect the multiple EPB devices in a polling place together, so any voter can go to any EPB station to check in (no more needing to find your line based on your precinct or last name).
- The MiFi devices are also used to update the voter registration list with absentee voting information to prevent a voter from casting an absentee ballot and a ballot on election day.
- The MiFi devices also connect all of the EPB's in a polling place to the county election's office, which can edit voter details and push down voter information instantly to the polling place. It also allows counties to have information related to voter activity at each polling place in real time.

In the 2020 General Election, the SEC was able to use a portion of its own funding to cover the cost of that single statewide election when every MiFi in the state was turned on. Going forward, the funds of this request would be used to cover the ongoing costs of the MiFi devices based on quotes from the vendor, Verizon Wireless. Even in non-statewide election years, there are 300-400 elections in the State of South Carolina and EPB's will be used in each of these elections.

Appropriating these funds further confirms uniformity and security of polling place operations throughout the state, ensures all voters in South Carolina have access to the same secure and tested election methods, and ensures county governments are not over-burdened with the ongoing costs of evolving election technology.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

<b>ACCOUNTABILITY OF FUNDS</b>	1. Ensure compliance with state and federal laws and agency policies and procedures. 2. Manage administrative, financial and human resource activities of the agency.
--------------------------------	--

*What specific strategy, as outlined in the most recent Strategic Planning and Performance Measurement template of agency's accountability report, does this funding request support? How would this request advance that strategy? How would the use of these funds be evaluated?*

**FUNDS**

*What individuals or entities would receive these funds (contractors, vendors, grantees, individual beneficiaries, etc.)? How would these funds be allocated – using an existing formula, through a competitive process, based upon predetermined eligibility criteria?*

**JUSTIFICATION OF REQUEST**

The agency is requesting two positions to support the critical needs of the agency.

First, a paralegal position to support the agency's General Counsel. In the last and current fiscal year, the agency has seen significant increase in litigation, data-sharing agreements with other agencies, increased contracting with vendors and a 450% increase in FOIA requests. The paralegal would support the General Counsel.

Second, an Administrative Coordinator II, who would serve in human resources and procurement. Those duties have temporarily been assigned to the assistant to the executive director and management team, but this was not meant to be a long-term responsibility for that position.

If the funding is not received, SEC will not have enough staffing or funds to accomplish its current requirements, potentially resulting in a decrease of federal funds from the U.S Election Assistant Commission.

SEC currently does not have any available FTE positions.

*Please thoroughly explain the request to include the justification for funds, potential offsets, matching funds, and method of calculation. Please include any explanation of impact if funds are not received. If new positions have been requested, explain why existing vacancies are not sufficient.*

*Please provide a detailed summary of service delivery impact caused by a reduction in General Fund Appropriations and provide the method of calculation for anticipated reductions. Agencies should prioritize reduction in expenditures that have the least significant impact on service delivery.*

**AGENCY COST  
SAVINGS PLANS**

In order to absorb a 3% reduction, the S.C State Election Commission would reduce spending for supplies, training, and travel.

*What measures does the agency plan to implement to reduce its costs and operating expenses by more than \$50,000? Provide a summary of the measures taken and the estimated amount of savings. How does the agency plan to repurpose the savings?*
