Code 1976 § 1-11-270

Division of General Services, Program of Fleet Management; establishment of criteria for individual assignment of motor vehicles.

Effective July 1, 2015

- A. The department shall establish criteria for individual assignment of motor vehicles based on the functional requirements of the job, which shall reduce the assignment to situations clearly beneficial to the State. Only the Governor, statewide elected officials, and agency heads are provided a state-owned vehicle based on their position.
- B. Law enforcement officers, as defined by the agency head, may be permanently assigned state-owned vehicles by their respective agency head. Agency heads may assign a state-owned vehicle to an employee when the vehicle carries or is equipped with special equipment needed to perform duties directly related to the employee's job, and the employee is either in an emergency response capacity after normal working hours or for logistical reasons it is determined to be in the agency's interest for the vehicle to remain with the employee. No other employee may be permanently assigned to a state-owned vehicle, unless the assignment is cost advantageous to the State under guidelines developed by the State Fleet Manager. Statewide elected officials, law enforcement officers, and those employees who have been assigned vehicles because they are in an emergency response capacity after normal working hours are exempt from reimbursing the State for commuting miles. Other employees operating a permanently assigned vehicle must reimburse the State for commuting between home and work.
- C. All persons, except the Governor and statewide elected officials, permanently assigned with automobiles shall log all trips on a log form approved by the Department, specifying beginning and ending mileage and job function performed. However, trip logs must not be maintained for vehicles whose gross vehicle weight is greater than ten thousand pounds nor for vehicles assigned to full-time line law enforcement officers. Agency directors and commissioners permanently assigned state vehicles may utilize exceptions on a report denoting only official and commuting mileage in lieu of the aforementioned trip logs.

The department shall develop a system of agency-managed and interagency motor pools which are, to the maximum extent possible, cost beneficial to the State. All motor pools shall operate according to regulations promulgated by the department. Vehicles shall be placed in motor pools rather than being individually assigned except as specifically authorized by the department in accordance with criteria established by the department. Agencies utilizing motor pool vehicles shall utilize trip log forms approved by the department for each trip, specifying beginning and ending mileage and the job function performed.

The provisions of this section shall not apply to school buses and service vehicles.

The department shall promulgate rules and regulations governing vehicle maintenance to effectuate the plan.

The State Vehicle Maintenance program shall include:

All motor fuels shall be purchased from state facilities except in cases where such purchase is impossible or not cost beneficial to the State.

Agencies to develop and implement uniform cost accounting and reporting system; purchase of motor vehicle equipment and supplies; use of credit cards; determination of vehicle cost per mile.

Effective: July 1, 2015

In accordance with criteria established by the department, each agency shall develop and implement a uniform cost accounting and reporting system to ascertain the cost per mile of each motor vehicle used by the State under their control. Agencies presently operating under existing systems may continue to do so provided that departmental approval is required and that the existing systems are uniform with the criteria established by the department. All expenditures on a vehicle for gasoline and oil shall be purchased in one of the following ways:

1. from state-owned facilities and paid for by the use of Universal State Credit Cards except where agencies purchase these products in bulk;
2. from any fuel outlet where gasoline and oil are sold regardless of whether the outlet accepts a credit or charge card when the purchase is necessary or in the best interest of the State; and
3. from a fuel outlet where gasoline and oil are sold when that outlet agrees to accept the Universal State Credit Card.

These provisions regarding purchase of gasoline and oil and usability of the state credit card also apply to alternative transportation fuels where available. The department shall adjust the budgetary appropriation for "Operating Expenses--Lease Fleet" to reflect the dollar savings realized by these provisions and transfer such amount to other areas of the State Fleet Management Program. The department shall promulgate regulations regarding the purchase of motor vehicle equipment and supplies to ensure that agencies within a reasonable distance are not duplicating maintenance services or purchasing equipment that is not in the best interest of the State. The department shall develop a uniform method to be used by the agencies to determine the cost per mile for each vehicle operated by the State.

The department is authorized to exempt vehicles carrying human service agency clients in those instances in which the privacy of the client would clearly and necessarily be impaired.
