

Annual Leave Accrual Rates

- An employee's leave accrual date reflects the following: 1) all state service in an FTE position, including part-time service, adjusted to reflect any break in service; 2) all service as a certified employee in a permanent position of a school district of this state; and 3) all service in any temporary capacity counted toward the employee's probationary period.
- Service as an employee of the legislative or judicial branches of South Carolina State Government may be reflected in the leave accrual date.
- Service as an employee of a quasi-state agency may be considered when establishing an employee's leave accrual date. Some quasi-state agencies include, but are not limited to: State Ports Authority, Santee Cooper, Public Service Authority, Savannah Valley Authority, Carolina Capital Investment Corporation (CCIC), the South Carolina Education Lottery, and the Medical University Hospital Association.
- A part-time employee in an FTE position earns annual leave based on the employee's average workday. The average workday is determined by dividing the total number of hours the employee is regularly scheduled to work during a week by five.
